THE FATAL OPEN FIRE-PLACE CLAIMS ANOTHER CHILD VICTIM

Little Mary, Aged 4, Daughter of Ellis Shriver, Was at Play When Her Clothes Took Fire.

SUFFERED ALL NIGHT AND DIED THIS MORNING

Her Mother Was Upstairs, Preparing the Children's Beds and the Little Ones Were Romping When Mary's Night-Gown Caught Fire at the Grate—Screams Brought Mrs. Shriver Too Late—She Was Also Painfully Burned While Trying to Save the Child.

Mary Gordon Shriver, aged 4 years, daughter of Ellis T. Shriver, was horribly burned at her home in Drury lane at 9 o'clock last night, and died this morning.

Mrs. Shriver, who was preparing to retire, had gone to the second story to arrange the beds for the children and had not been absent five minutes when the accident occurred. The little one was with her brother, Willie, in the middle room downstairs, and assisted by him had succeeded in donning her night gown.

The children were playing about the room when Mary passed near the grate and her gown caught fire. The fireplace is a dangerous one, being close to the front of the chimney and having no protection whatever.

Willie grasped the situation in an instant and gave the alarm. By this time the child had become conscious of her danger, and her screams attracted the mother. When Mrs. Shri-

ver arrived on the scene the girl was enveloped in flames.

Unmindful of her own danger the mother hastened to the assistance of the child. She succeeded in tearing the gown from the little one, but not before Mary had been terribly burned about the back and legs.

Mrs. Shriver received a number of painful burns on the hands and arms, but was not conscious of it until some time during the night.

Drs. Elliott and Hobbs were summoned and made the child as comfortable as possible, although the injuries were known to be necessarily fatal, owing to the shock which had already set in. She died at 9:50 this morning.

Mr. Shriver was absent from home, having gone to Wheeling yesterday afternoon. He returned this morning and was present at the bedside when the child died.

Mary was the youngest of four children, and was the life of the household. No arrangements have yet been made for the funeral.

TRUSTED A STRANGER.

WELLSVILLE SALOONIST NOW WISHES HE HADN'T.

The Man Is Missing And So Are \$25. And Overcoat And Shoes.

Lester Laughlin, a Wellsville saloon keeper, about four weeks ago hired a stranger to work for him. Now he wishes he had not done so. The stranger said his name was Oshman and that he came from Steubenville. He proved a handy man around the place and was trusted.

On Thursday Laughlin went to Pittsburgh, leaving the saloon in charge of the new man. He did not return until yesterday noon. He found the place locked, the cash register empty and his overcoat and a pair of shoes missing. Oshman had kept the saloon open until closing time Saturday night, and the register showed \$25.75 taken in.

Laughlin says he has learned that the stranger's name is Augustus Connor. He is supposed to have come to East Liverpool and the police have been notified to watch for him.

HOPES OF FORTUNE

TO COME RAISED IN THE BLACK BURN CLAIMANTS.

An Interesting Meeting at Steubenville—Next One to Be Held Here.

The association of the Blackburn heirs held a meeting in Steubenville yesterday afternoon and adjourned to hold an early meeting in this city. The meeting opened with prayer by Abram Blackburn. A valuable record and a statement from the London lawyers who are looking after the interests of the American claimants were read and were of a most encouraging character.

Short addresses were made by Frank P. Blackburn, superintendent of the Pennsylvania reform school; A. C. Blackburn, of Steubenville, ex-auditor of Jefferson county; Attorney J. O. Blackburn, of Steubenville, and Abram Blackburn, of Zanesville. Several

GEORGE HOLDS ON TO THE RECORDS

Claims Some Books of the City Engineer Are His Personal Property.

MUCH VALUABLE DATA IN THEM

Council Takes the View That They Belong to the City And a Suit May Be Instituted for Recovery—Law on the Matter.

There promises to be a great deal of trouble and some litigation before City Engineer Kelly is rightfully installed in the position.

When Mr. Kelly's appointment was confirmed by the council a motion was made that a committee be appointed to look after the property belonging to the city which still remained in the hands of Engineer George.

Although the committee has made a number of attempts to carry out the instructions, they have been unsuccessful. Yesterday afternoon Councilmen Cripps, McLane and Bullock paid a visit to the old engineer, but accomplished nothing.

Mr. George takes the stand that any information which he now possesses rightfully belongs to him personally, as he regards the city as being merely an employer the same as any of his other clients.

He does not deny that he has a vast quantity of data that would be of incalculable value to the city in the engineering department, but that it is his own property.

He told the committee yesterday that Engineer Kelly has everything that belongs to the city and everything that is necessary to conduct the affairs of the city.

The council is inclined to take a different view of the matter. It is true the present engineer has the original plans of a majority of the streets and alleys, but there is another original which one of the city fathers term of original original; that is, a revised plan, and contains all the alterations and new lines that have been fixed since the first survey was made.

Another noticeable feature of the controversy is that the council claims

George has turned over all the data

for completed thoroughfares and still

retains that in connection with un-

completed improvements, such as Cal-

cutta road and Pennsylvania avenue.

There have been lines fixed and marks

made on houses and trees, the loca-

tion of which are known only to En-

gineer George. Whether there is any

memorandum of these or not, the city

takes the stand that the data right-

fully belongs to the office and should

be left there.

The action of the ex-engineer has

caused the members of council to de-

termine upon a plan to recover the

property through the courts.

Section 6842, chapter 4 of the Re-

vised Statutes, covers the matter in

every detail, and it is likely the so-

licitor will be instructed to take this

course to bring about the desired re-

sult. The section reads:

"An officer, agent, servant or em-

ployee of any person who embezzeles

or converts to his own use, or fraud-

ulently takes or makes way with, or

secretes with intent to embezzle or

convert to his own use anything of

value which shall come into his pos-

session by virtue of his employment

or appointment as such an officer, ser-

vant or employee, and an agent, clerk,

servant or employee who embezzeles

or converts to his own use, or conceals

with such intent anything of value

which shall come into his possession by

virtue of his office or employment, is

guilty of embezzlement, and shall be

punished as for the larceny of the

thing embezzled."

The members of council claim that every figure and every item of data now in the possession of Mr. George which he gained while in the discharge of his duties as city engineer, is the property of the city, under the section just quoted, and the propose taking this means of procuring the documents and figures.

AN OLD MAN'S MISDEEDS LEAD TO HIS ARREST AND A FINE OF \$50.

Likely to Go to Workhouse—His Disgraceful Conduct Proven By Witnesses.

The most revolting case with which the police department have been called upon to deal in a long time, is just now pending before Mayor Davidson.

William Race was given a hearing this morning on a very serious charge, and one that may lead him where he will annoy no one for some time.

Race lives at the corner of Third street and Peach alley, and has within the past few weeks been acting in a manner calculated to win the contempt and condemnation of the entire community. So bold has he become that the parents of small children have deemed it wise to keep their little ones off the street. Frank Byers and William Bridge made complaint to the authorities on the strength of reports made by their children with reference to the man's actions.

Chief Thompson had a warrant issued early yesterday morning, but Race was not taken until late in the evening. He was brought to jail and locked up.

Since the complaint against Race has been filed it has occurred to the authorities that he may be the same individual who has been annoying a number of girls on Pennsylvania avenue.

This morning considerable time was spent in an attempt to fix a number of other offenses of a like character upon Race, but it was not successful.

At 10:30 Race was brought into the presence of a little girl who had a thrilling experience with a man on Pennsylvania avenue some time ago, but she was unable to identify him.

He was then taken before the mayor, and after the charge had been read Race stated he presumed there would be no use in standing trial, as he had been caught and supposed he was guilty. The mayor promptly fined him \$50 and costs. He will stand committed to the Stark county workhouse until fine and costs are paid.

Mayor Davidson completed the sentence with this remark: "I want to say right here, Mr. Race, if you ever conclude to return to East Liverpool and are arraigned in this court on an offense of this kind again, I will use my best endeavors to procure for you a life sentence."

DYNAMITE DID IT.

BROUGHT UP THE BODY OF LITTLE HOUSTON KELLY.

Searchers Were About to Give Up When the Experiment Was Tried.

Twenty-four hours after he lost his life in the waters of Little Yellow creek at Wellsville, the body of little Houston Kelly, the six-year-old son of E. S. Kelly, was recovered today.

The searchers were about to give up, when it was decided to explode a stick of dynamite in the water. This was done and the body came up. It was found only a hundred feet from the bridge where the boy fell in and was not disfigured in the least.

Valuable Horse Died.

A valuable horse belonging to John Rinehart died this morning. Mr. Rinehart purchased the horse at Zanesville two weeks ago. It had been sick since yesterday at noon.

SALEM, April 27.—(Special)—William W. McCartney is dead. He was 58 years old and had spent 38 years of his life in bed, a sufferer from inflammatory rheumatism and complicatory diseases. Death came to his relief last night.

SUES THE BANK FOR A DEPOSIT

Thompson Firm, of Salineville, Made Defendant In an Action For \$600.

EAST LIVERPOOL DIVORCE SUIT

Will Be Taken Up in Common Pleas Court Next Week—Auditor Adams Arranging for Appraisement of Railway Property.

Lisbon, April 27.—(Special)—Elmer W. Lafferty, administrator of the estate of Hannah Bettis, of Salineville, entered suit today against the H. A. Thompson Banking company, of that town, to recover \$600. He claims that in July, 1899, Mrs. Bettis deposited this amount in the bank, taking a certificate of deposit for the money; that at different times he has demanded the payment of the certificate, but that it has been refused him; that a few days ago the defendant notified him that he must bring suit to recover the amount.

The April term of common pleas court will open at 10 o'clock Monday morning, and promises a busy week.

After the grand jury has been empaneled the case of Mary Calhoun vs. William Calhoun, of East Liverpool, will be called. Action was filed asking for divorce and a number of witnesses have been subpoenaed.

Judge Boone today appointed Theresa McCaskey as guardian of Margaret Grace McCaskey, of Center township, with \$500 bond.

Lizzie Winder, guardian, secured an order of private sale for two lots in Hanoverton and sold them to L. H. Lightcap. The sale was confirmed.

Auditor Adams will be in Cleveland on May 10 and May 17 to meet the auditors of the different counties through which the C. & P. and Erie railroads pass, to fix the valuations of the railroad properties. The former will be appraised on May 10 and the latter on the 17th. The Ft. Wayne railroad will be appraised at Canton on May 24. The time for appraising the Pittsburg, Lisbon & Western railroad, the Salem railroad and the different street railways in the county has not been set.

Henry Cartwright and Miss Lucinda Shafsteen, of Unity township; Elba R. Wollam and Miss Blanche March, both of East Liverpool, have been granted marriage licenses.

WARRANT OUT FOR DAVID MARSHALL'S ARREST.

Drew a Knife and Fought Sandy Grimes Most Furiously.

"Sandy" Grimes preferred a charge of felonious assault against David Marshall in Justice Carman's court yesterday afternoon. Marshall made his escape by skiff to the West Virginia shore before Constable Powell arrived.

It is said that Grimes accused Marshall of scabbing, and the lie was passed. Grimes threw a brick at Marshall. The missile struck his raised arm and, glancing, hit him on the left side of his face. Marshall drew a knife and made at Grimes. They clinched before the knife could be used and fell with Marshall on top. Grimes threw his arms around Marshall and held Marshall's arms close to his body to prevent him from using the knife. Marshall then amused himself by chewing Grimes' nose. Finally the three were parted.

Grimes repaired to the squire's office and made the complaint, while Marshall escaped to West Virginia. Marshall resides above Klondike and Grimes lives in Pennsylvania.

FIRST BASE BALL GAME.**Won By Dixonville Against Harker Pottery Team.**

The first base ball game at Columbian park this year was played yesterday afternoon, when the Harker's pottery team were pitted against the Dixonville nine. The score was 28 to 7 in favor of Dixonville.

Marsh, Moore and Wright ran a foot race at the close, Marsh and Moore gave out when about half way around the track. Wright proved himself a star sprinter on the last half, not knowing that the other fellows had stopped.

Where He Shone.

A Thespian who spent several years trying to get beyond "the carriage awaits milord" station in first class Broadway productions was induced by his brother to join him in the dairy business in the City of Mexico. While on a business trip to this city recently buying new machinery and appliances for his prosperous Mexican creameries he met one of his former companions who was still struggling for an opportunity to "say lines." An exchange of confidences revealed the fact that the former actor was now making a snug fortune in the milk business, and his friend, the persevering player, remarked: "You're all right, Billy. You could never have shone in a theatrical way, but you are a star in a milky way."—New York Sun.

Sciatic Rheumatism Cured After Fourteen Years of Suffering.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around, but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Palm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by Alvin H. Bulger, druggist.

Shot In Fight With Wardens.

Akron, O., April 27.—Edward Frye was fatally wounded in an encounter with Game Wardens Ruckle and Fox. Frye and another man were discovered by the wardens in the act of sealing at Long Lake. They were called on to surrender and a pistol duel ensued. Frye was shot five times and Ruckle received a slight wound.

1,000,000 WOMEN RELIEVED

Reports received show that Wine of Cardui has brought permanent relief to 1,000,000 suffering women in the last few years. Because of Wine of Cardui, thousands of sufferers, seemingly on the way to premature graves, are now healthy women taking an active interest in the duties of life. Mrs. Mitchell was declining in health when Wine of Cardui "performed a miraculous cure" in her case. She suffered terribly with the agonies of falling of the womb, leucorrhœa and profuse menstruation. The weekly appearance of the menses for two months sapped her vitality until she was little better than a physical wreck. Her nervous system gave way under the terrible pain and aggravation. Then came the trial of Wine of Cardui and the cure. Mrs. Mitchell's experience ought to commend Wine of Cardui to suffering women in words of burning eloquence. The Wine is within the reach of all. Women who try it are relieved. You can get as much benefit as Mrs. Mitchell received. Ask your druggist for Wine of Cardui. Send to the laboratory for the medicine if he tends you a substitute.

WINE OF CARDUI

South Gaston, N. C., May 20, 1898.

Wine of Cardui and Thedford's Black-Draught have performed a miraculous cure in my case. I have been a great sufferer from falling of the womb and leucorrhœa, and my menses came every week for two months and became very painful. I was in a bad condition. My husband induced me to try Wine of Cardui and Black-Draught, and now I have no pain. The leucorrhœa has disappeared and now I am in perfect health. Mrs. WILLIE MITCHELL.

WARRANT OUT FOR DAVID MARSHALL'S ARREST.

Drew a Knife and Fought Sandy Grimes Most Furiously.

"Sandy" Grimes preferred a charge of felonious assault against David Marshall in Justice Carman's court yesterday afternoon. Marshall made his escape by skiff to the West Virginia shore before Constable Powell arrived.

It is said that Grimes accused Marshall of scabbing, and the lie was passed. Grimes threw a brick at Marshall. The missile struck his raised arm and, glancing, hit him on the left side of his face. Marshall drew a knife and made at Grimes. They clinched before the knife could be used and fell with Marshall on top. Grimes threw his arms around Marshall and held Marshall's arms close to his body to prevent him from using the knife. Marshall then amused himself by chewing Grimes' nose. Finally the three were parted.

Grimes repaired to the squire's office and made the complaint, while Marshall escaped to West Virginia. Marshall resides above Klondike and Grimes lives in Pennsylvania.

FIRST BASE BALL GAME.**Won By Dixonville Against Harker Pottery Team.**

The first base ball game at Columbian park this year was played yesterday afternoon, when the Harker's pottery team were pitted against the Dixonville nine. The score was 28 to 7 in favor of Dixonville.

Where He Shone.

A Thespian who spent several years trying to get beyond "the carriage awaits milord" station in first class Broadway productions was induced by his brother to join him in the dairy business in the City of Mexico. While on a business trip to this city recently buying new machinery and appliances for his prosperous Mexican creameries he met one of his former companions who was still struggling for an opportunity to "say lines." An exchange of confidences revealed the fact that the former actor was now making a snug fortune in the milk business, and his friend, the persevering player, remarked: "You're all right, Billy. You could never have shone in a theatrical way, but you are a star in a milky way."—New York Sun.

A FAMINE IN CHINA

Li Hung Chang Cables Regarding a Condition of Dire Distress.

OVER 1,000,000 ARE AFFECTED

Aged Statesman Says Urgent Relief is Necessary—Christian Herald Has Announced Purpose to Raise a Fund—Recent Edict of Empress.

New York, April 27.—The following cablegram was received by the Christian Herald:

"Pekin, April 25.—Very serious famine spreads over the whole province of Shan Si. Over 11,000,000 population affected. Urgent relief necessary. Conditions warrant immediate appeal."

(Signed) "Li Hung Chang." The Christian Herald has announced its purpose of raising a fund to relieve the sufferers in the famine stricken district.

FOR GOVERNING CHINA.

Empress Dowager Appointed a Board of Administration.

Washington, April 27.—The following cablegram was received at the state department from Mr. Squier, the United States chargé d'affaires at Pekin:

"The empress dowager has appointed a board of national administration to relieve her of her public functions. They embrace three members of the cabinet, with the empress, at Sian Fu, and Prince Ching, Viceroy Li and Prince Kung, who are now in Pekin."

This news was regarded as of importance, indicating, as it does, the relinquishment of the empress dowager of the arbitrary powers she heretofore has exercised. It also is apparent that she has placed herself in a position to avoid direct responsibility to the foreigners, for whatever may happen in the future the board will have to bear the brunt of any complaint. It is felt that the appointment of this board will make it much easier for the foreign ministers to transact business with the Chinese government.

The three members of the cabinet now at Sian Fu include the notorious Jung Lu, who was one of the most active in the outbreak against the foreigners last summer. One of the other members of this council is 70 years old and is said to be greatly debilitated. The third member has been at least lukewarm toward foreign interests. The choice of these three is looked upon as likely to complicate the good which Li Hung Chang and the others may accomplish.

WARLIKE ACT OF CHINESE.

Regulars Appeared Within the International Area.

Pekin, April 27.—The Chinese regulars, who retired beyond the great wall, reappeared at another point within the international area. Strong representations were made to the Chinese plenipotentiaries in regard to the necessity for their immediate retirement. The French force was in readiness to renew the operations, but had been ordered to await the result of the imperial edicts.

The Chinese were wondering if the imperial commission appointed by an edict issued April 23 to inquire fully into the question of reforms really meant the relinquishing of absolute power by the court or whether it was merely the formation of a privy council.

Notices in Chinese were placarded calling on patriotic Chinamen to return May 15 and expel all foreigners. Yung Lu Ting, the censor of Chi Li province, memorialized the throne to return.

CAMPBELL GOT INJUNCTION.

Eviction of His Household Goods Temporarily Prevented.

Hamilton, O., April 27.—Ex-Governor James E. Campbell secured a temporary injunction against the Provident Life and Trust company, and Sheriff Peter Bisdorf, to restrain the sheriff from putting the governor's household goods, now in the Campbell mansion, at Fourth and Ludlow streets, into the street. The sheriff now has a writ of restitution to evict the governor from the house, but the injunction prevents him from serving it.

Governor Campbell established his Hamilton home some years ago. Later he mortgaged the house for \$17,000, and the trust company foreclosed two years ago. By agreement then an order of possession was not given the company, which bought the property. Governor Campbell voluntarily surrendered possession. He then rented the house from the purchaser and has been the tenant ever since, though the house has been closed two years, and the Campbells now live in New York. However, all the household effects are still there, and when in Hamilton the Campbells make it their home.

TREATY OPINIONS SECURED.

New Isthmian Document May Be Framed.

Washington, April 27.—The administration succeeded in securing a collection of opinions from the leaders of the senate of all political parties upon which to base negotiations for a new isthmian canal treaty to replace the Hay-Pauncefote treaty. In other words, it was aware of the wishes of most of the senators, and the only problem before the state department was to frame a treaty that will reflect those views, insuring a two-thirds vote for ratification, and yet shall be acceptable to the British government. If, as reported from London, the *sina qua non* was a neutrality clause, officials here felt that success on this point seemed within reach.

It was expected that two drafts of a treaty would be framed before long, probably the latter part of June, on Mr. Hay's return from the west. It was hardly expected, however, that final results would be attained before next autumn, after the return of Lord Pauncefote from London.

FLABBY FELLOWS

WHO WANT TO BUILD UP THEIR BODIES WILL FIND THE "ONE THING NEEDFUL" IN DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

The body is built up from the food we eat. But before food can be assimilated by the body it must be prepared for assimilation by the stomach and other organs of digestion and nutrition. Food does not feed when the stomach is "out of order." The result is, weak muscles and flabby flesh. "Golden Medical Discovery" heals diseases of the stomach and digestive and nutritive system. It works with Nature to make manly muscle and form firm flesh.

In a letter received from A. D. Weller, Esq., of Pensacola, Escambia Co., Fla. (Box 544), he states: "I have, since receiving your diagnosis of my case, as stomach trouble and liver complaint, taken eight bottles of the 'Golden Medical Discovery' and must say that I am transformed from a walking shadow (as my friends called me) to perfect health."

A FAMINE IN CHINA

Li Hung Chang Cables Regarding a Condition of Dire Distress.

OVER 11,000,000 ARE AFFECTED

Aged Statesman Says Urgent Relief is Necessary—Christian Herald Has Announced Purpose to Raise a Fund—Recent Edict of Empress.

New York, April 27.—The following cablegram was received by the Christian Herald:

"Pekin, April 25.—Very serious famine spreads over the whole province of Shan Si. Over 11,000,000 population affected. Urgent relief necessary. Conditions warrant immediate appeal."

(Signed) "Li Hung Chang." The Christian Herald has announced its purpose of raising a fund to relieve the sufferers in the famine stricken district.

FOR GOVERNING CHINA.

Empress Dowager Appointed a Board of Administration.

Washington, April 27.—The following cablegram was received at the state department from Mr. Squier, the United States chargé d'affaires at Pekin, dated Friday:

"The empress dowager has appointed a board of national administration to relieve her of her public functions. They embrace three members of the cabinet, with the empress, at Sian Fu, and Prince Ching, Viceroy Li and Prince Kung, who are now in Pekin."

This news was regarded as of importance, indicating, as it does, the relinquishment of the empress dowager of the arbitrary powers she heretofore has exercised. It also is apparent that she has placed herself in a position to avoid direct responsibility to the foreigners, for whatever may happen in the future the board will have to bear the brunt of any complaint. It is felt that the appointment of this board will make it much easier for the foreign ministers to transact business with the Chinese government.

The three members of the cabinet now at Sian Fu include the notorious Jung Lu, who was one of the most active in the outbreak against the foreigners last summer. One of the other members of this council is 70 years old and is said to be greatly debilitated. The third member has been at least lukewarm toward foreign interests. The choice of these three is looked upon as likely to complicate the good which Li Hung Chang and the others may accomplish.

WARRIOR ACT OF CHINESE.

Regulars Appeared Within the International Area.

Pekin, April 27.—The Chinese regulars, who retired beyond the great wall, reappeared at another point within the international area. Strong representations were made to the Chinese plenipotentiaries in regard to the necessity for their immediate retirement. The French force was in readiness to renew the operations, but had been ordered to await the result of the imperial edicts.

The Chinese were wondering if the imperial commission appointed by an edict issued April 23 to inquire fully into the question of reforms really meant the relinquishing of absolute power by the court or whether it was merely the formation of a privy council.

Notices in Chinese were placarded calling on patriotic Chinamen to report May 15 and expel all foreigners. Yung Lu Ting, the censor of Chi Li province, memorialized the throne to return.

CAMPBELL GOT INJUNCTION.

Eviction of His Household Goods Temporarily Prevented.

Hamilton, O., April 27.—Ex-Governor James E. Campbell secured a temporary injunction against the Provident Life and Trust company, and Sheriff Peter Bisdorf, to restrain the sheriff from putting the governor's household goods, now in the Campbell mansion, at Fourth and Ludlow streets, into the street. The sheriff now has a writ of restitution to evict the governor from the house, but the injunction prevents him from serving it.

Governor Campbell established his Hamilton home some years ago. Later he mortgaged the house for \$17,000, and the trust company foreclosed two years ago. By agreement then an order of possession was not given the company, which bought the property. Governor Campbell voluntarily surrendered possession. He then rented the house from the purchaser and has been the tenant ever since, though the house has been closed two years, and the Campbells now live in New York. However, all the household effects are still there, and when in Hamilton the Campbells make it their home.

COUNTY AND NEIGHBORHOOD.

Matthew Orr, of Lisbon, has been granted a pension of \$17 a month.

John Stevens, aged 40, employed at the brick works at Freeman's station, has gone blind.

Burglars entered the house of E. D. Round, at Hubbard, and stole \$63 and jewelry worth \$150.

H. A. Thompson, nominee for county treasurer, has been confined to his home at Salineville for some months by rheumatism, but is now able to be out.

Rev. S. W. McFadden, of Warren, formerly pastor of the Alliance Presbyterian church, is in receipt of several very flattering calls, among them Philadelphia and Cleveland.

The great rod, wire and nail mill plant of the Union Steel company at Donora, on the Monongahela river, which promises to be the most important independent venture of its kind in the country, will be placed in operation the latter part of next month.

While Richard Whetstone was engaged in burning brush on the farm of Earl Willard, in Franklin township, the flames passed beyond control and burned over 25 acres, destroying some fence and valuable timber and about 6,000 feet of sawed timber belonging to John Williams.

Fraud Is Charged.

Wheeling, W. Va., April 27.—Sensational allegations are made in an affidavit for an attachment filed in the circuit court here by W. P. DeArmitt, W. L. Kann and S. Schoyer, against Robert Kuhn, Clarence Birdseye and Hermann Knubel, all of Pittsburgh, charging them with fraudulently securing \$30,000 in the Empire company's 30,000-acre deal.

Threw Him in the River.

Beaver Falls, Pa., April 27.—Timothy Hern, a well-known citizen of Eastvale, was attacked by three negroes, who threw him into the Beaver river in a deliberate attempt to murder him. He believes the negroes mistook him for another man.

FAVOR PLATT'S PLAN.

Cuban Democrats to Hold a Meeting at Matanzas—Will Endorse Wood's Course.

Havana, April 27.—The Democrats will hold a mass meeting in Matanzas next Sunday, the event being the opening rally of the campaign. The platform to be submitted for adoption will favor acceptance of the Platt amendment and will endorse the course of Governor General Wood. Among the speakers will be Senor Goberga, Senor Montoro, Senor Hernandez, Senor Pierra and Senor Garcia.

TREATY OPINIONS SECURED.

New Isthmian Document May Be Framed.

Washington, April 27.—The administration succeeded in securing a collection of opinions from the leaders of the senate of all political parties upon which to base negotiations for a new isthmian canal treaty to replace the Hay-Pauncefote treaty. In other words, it was aware of the wishes of most of the senators, and the only problem before the state department was to frame a treaty that will reflect those views, insuring a two-thirds vote for ratification, and yet shall be acceptable to the British government. If, as reported from London, the *sina qua non* was a neutrality clause, officials here felt that success on this point seemed within reach.

It was expected that two drafts of a treaty would be framed before long, probably the latter part of June, on Mr. Hay's return from the west. It was hardly expected, however, that final results would be attained before next autumn, after the return of Lord Pauncefote from London.

Mrs. Westinghouse Buys Blaine House

Washington, April 27.—Mrs. Harriet S. Blaine, of Augusta, Me., widow of the late James G. Blaine, placed on record a deed in fee transferring the old Blaine residence, near Dupont Circle, this city, to Marguerite Erskine Walker Westinghouse, of Pittsburgh. The consideration named is \$150,000.

GOLDEN
MEDICAL
DISCOVERY**

The body is built up from the food we eat. But before food can be assimilated by the body it must be prepared for assimilation by the stomach and other organs of digestion and nutrition. Food does not feed when the stomach is "out of order." The result is, weak muscles and flabby flesh. "Golden Medical Discovery" heals diseases of the stomach and digestive and nutritive system. It works with Nature to make manly muscle and form firm flesh.

In a letter received from A. D. Weller, Esq., of Pensacola, Escambia Co., Fla. (Box 544), he states: "I have, since receiving your diagnosis of my case, as stomach trouble and liver complaint, taken eight bottles of the 'Golden Medical Discovery' and must say that I am transformed from a walking shadow (as my friends called me) to perfect health."

COMING TO AN UNDERSTANDING.

Only good can result from the visit of the Cuban commission to Washington and the consultation of its members with the president and cabinet. If the Cubans are fair-minded men, they cannot fail to be convinced that this government has only the welfare of the Cubans at heart and is acting solely to promote their interests rather than its own. A full and complete understanding should, and we believe, will, be the outcome of the deliberations, and the Cuban delegation will return to the island fully enlightened as to the desires and intentions of the United States and prepared to counsel the dissatisfied element in the interests of harmony. This nation has done so much for Cuba that it seems impossible that reasoning men can fail to be impressed with the sincerity of its purpose to foster and aid in the establishment of a stable Cuban government. It has no other aim or motive.

WIRELESS TELEGRAPHY.

Wireless telegraphy, which the incredulous and unprogressive were but recently describing as a scientific plaything of no practical utility, has already been put to numerous uses, the latest being its adoption by one of the big steamship companies. The Cunard line, by means of it, has so arranged that the arrival of the vessels on the Atlantic coast will be known in New York eight hours before intelligence is received at the Highlands signal station and two hours before docking. By supplying the Campania, Lucania, Umbria and Etruria with Marconi plants the vessels will be able to communicate with a receiving station at Montauk Point while passing over Nantucket shoals. This will give friends of incoming tourists a chance to meet them at the pier. For short distance telegraphing the uses to which the system can be put are manifold, and industry, war and commerce will rapidly take advantage of them.

FAMINE IN CHINA.

China has been so busy raising Cain instead of raising vegetables that she is now confronted with a famine. If it were the mischief-makers only who were affected, it would not be so bad, but as usual the hand of hunger falls most heavily on the innocent and helpless. The world has now an opportunity of fulfilling the scriptural injunction to return good for evil and proving, by establishing a Chinese relief fund, that Christians can be generous, even to their enemies.

Neuralgia.

The Prayer of a Nerve for More Blood.

Neuralgia may attack any part of the body but most frequently occurs where the nerves are most abundant.

In the head,
In the face.
Sometimes the heart nerves seem to twist Twinging rheumatic pains of the extremities.

Sharp and intense at times
In the intervals dull and heavy.
Neuralgia is the result of impoverished blood caused by impairment of the nerves—a lack of nerve force.

It is a disease of the nerve centers, and the pains accompanying it are a prayer for better nourishment. They are the danger signals which warn you against a total collapse of the nervous system.

Liniments and all external applications can only give temporary relief. Permanent cure cannot possibly come until the nerve centers are thoroughly revitalized and reinvigorated by Dr. A. W. Chase's Nerve Pills. The beneficial effects of this great nerve restorative are felt thrilling through the nerve fibres as week by week and month by month the nerve force of the body is restored.

Women afflicted with diseases peculiar to their sex are frequently great sufferers from neuralgia. Dr. Chase's Nerve Pills positively cure both these disorders by filling the nervous system with new vigor and life. 50 cents a box at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. The genuine box portrait and signature of Dr. A. W. Chase on each package.

NOTES AND NOTIONS.

A VARIETY OF TALES PICKED UP ABOUT TOWN.

Opinions And Observations of Interest As Noted By News Review Reporters.

Wednesday morning the shifting engine almost ran down three different wagons at the East and West Market street crossings. Engineer John Workman, in speaking of the matter yesterday afternoon, said:

"The drivers of wagons are very careless at these crossings, especially the drivers of milk wagons. They never stop to see if the train is approaching, and if they should happen to be struck they would sue the company for damages, and nine chances out of ten the residents of that part of the city would want the company to put up gates. The street car which runs up the Calcutta road has also had several narrow escapes, but when coming down that grade with a string of cars it is impossible for us to stop in two or three feet. It is also impossible for myself and fireman to keep a watch on the crossings, as we are compelled to keep our eyes on the brakemen, and I think the teamsters should look to their own safety."

A well known young man of this city attended the dance given at Rock Springs Tuesday evening by Nowling's orchestra. He was slightly under the influence of liquor and in some manner lost his hat. It was found by a friend who kept it for some time. When it was returned to him he was told to keep tab on it or he would lose it again. It disappeared again and he was unable to find it. When the time to depart for home arrived the young man went to the cloak room where there were about 200 hats, and starting at the front of the room proceeded to try on every hat, saying as he did so: "This one belongs to me," but the owner of the hat would appear and claim it. There was one left out of the bunch and it was several sizes too large for him, but he pulled it down over his ears, turned up his coat collar and took a street car for this city, saying he only wanted a hat to come home in.

"What is the diaphragm?" asked the teacher. "The thing that holds the gas that makes the engine go," answered the small boy who works about a gas engine in his spare time.

COMING TO AN UNDERSTANDING.

Only good can result from the visit of the Cuban commission to Washington and the consultation of its members with the president and cabinet. If the Cubans are fair-minded men, they cannot fail to be convinced that this government has only the welfare of the Cubans at heart and is acting solely to promote their interests rather than its own. A full and complete understanding should, and we believe, will, be the outcome of the deliberations, and the Cuban delegation will return to the island fully enlightened as to the desires and intentions of the United States and prepared to counsel the dissatisfied element in the interests of harmony. This nation has done so much for Cuba that it seems impossible that reasoning men can fail to be impressed with the sincerity of its purpose to foster and aid in the establishment of a stable Cuban government. It has no other aim or motive.

WIRELESS TELEGRAPHY.

Wireless telegraphy, which the incredulous and unprogressive were but recently describing as a scientific plaything of no practical utility, has already been put to numerous uses, the latest being its adoption by one of the big steamship companies. The Cunard line, by means of it, has so arranged that the arrival of the vessels on the Atlantic coast will be known in New York eight hours before intelligence is received at the Highlands signal station and two hours before docking. By supplying the Campania, Lucania, Umbria and Etruria with Marconi plants the vessels will be able to communicate with a receiving station at Montauk Point while passing over Nantucket shoals. This will give friends of incoming tourists a chance to meet them at the pier. For short distance telegraphing the uses to which the system can be put are manifold, and industry, war and commerce will rapidly take advantage of them.

FAMINE IN CHINA.

China has been so busy raising Cain instead of raising vegetables that she is now confronted with a famine. If it were the mischief-makers only who were affected, it would not be so bad, but as usual the hand of hunger falls most heavily on the innocent and helpless. The world has now an opportunity of fulfilling the scriptural injunction to return good for evil and proving, by establishing a Chinese relief fund, that Christians can be generous, even to their enemies.

General Cassius M. Clay, of Kentucky, has lost none of his fighting spirit. It would be better for his reputation if he had.

One western train robber will rob no more. He died suddenly at the hands of representatives of the law. Let the good work go on.

Revolt has again broken out in the Russian universities. Apparently they teach little else there.

Neuralgia.

The Prayer of a Nerve for More Blood.

Neuralgia may attack any part of the body but most frequently occurs where the nerves are most abundant.

In the head.

In the face.

Sometimes the heart nerves seem to twist Twinging rheumatic pains of the extremities.

Sharp and intense at times.

In the intervals dull and heavy.

Neuralgia is the result of impoverished blood caused by impairment of the nerves—a lack of nerve force.

It is a disease of the nerve centers, and the pains accompanying it are a prayer for better nourishment. They are the danger signals which warn you against a total collapse of the nervous system.

Liniments and all external applications can only give temporary relief. Permanent cure cannot possibly come until the nerve centers are thoroughly revitalized and reinvigorated by Dr. A. W. Chase's Nerve Pills.

The beneficial effects of this great nerve restorative are felt thrilling through the nerve fibres as week by week and month by month the nerve force of the body is restored.

Women afflicted with diseases peculiar to their sex are frequently great sufferers from neuralgia. Dr. Chase's Nerve Pills positively cures both these disorders by filling the nervous system with new vigor and life. 50 cents a box at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. The genuine has portrait and signature of Dr. A. W. Chase on each package.

Sold in East Liverpool by Charles T. Larkins.

NOTES AND NOTIONS.

A VARIETY OF TALES PICKED UP ABOUT TOWN.

Opinions And Observations of Interest As Noted By News Review Reporters.

Wednesday morning the shifting engine almost ran down three different wagons at the East and West Market street crossings. Engineer John Workman, in speaking of the matter yesterday afternoon, said:

"The drivers of wagons are very careless at these crossings, especially the drivers of milk wagons. They never stop to see if the train is approaching, and if they should happen to be struck they would sue the company for damages, and nine chances out of ten the residents of that part of the city would want the company to put up gates. The street car which runs up the Calcutta road has also had several narrow escapes, but when coming down that grade with a string of cars it is impossible for us to stop in two or three feet. It is also impossible for myself and firemen to keep a watch on the crossings, as we are compelled to keep our eyes on the brakemen, and I think the teamsters should look to their own safety."

A well known young man of this city attended the dance given at Rock Springs Tuesday evening by Nowling's orchestra. He was slightly under the influence of liquor and in some manner lost his hat. It was found by a friend who kept it for some time.

When it was returned to him he was told to keep tab on it or he would lose it again. It disappeared again and he was unable to find it. When the time to depart for home arrived the young man went to the cloak room where there were about 200 hats, and starting at the front of the room proceeded to try on every hat, saying as he did so: "This one belongs to me," but the owner of the hat would appear and claim it.

There was one left out of the bunch and it was several sizes too large for him, but he pulled it down over his ears, turned up his coat collar and took a street car for this city, saying he only wanted a hat to come home in.

"What is the diaphragm?" asked the teacher. "The thing that holds the gas that makes the engine go," answered the small boy who works about a gas engine in his spare time.

MOST PEOPLE LOPSIDED.

Differences Between the Legs, Eyes and Ears of Men and Women.

The two sides of a person's face are never alike. The eyes are out of line in two cases out of five, and one eye is stronger than the other in seven persons out of ten. The right ear is also, as a rule, higher than the left.

Only one person in 15 has perfect eyes, the largest percentage of defects prevailing among fair-haired people. Short sight is more common in town than among country folk, and of all people the Germans have the largest proportion of shortsighted persons.

The crystalline lens of the eye is the one portion of the human body which continues to increase with the attainment of maturity.

The smallest interval of sound can be better distinguished with one ear than with both. The nails of two fingers never grow with the same rapidity, that of the middle finger growing the fastest, while that of the thumb grows the slowest.

In 54 cases out of 100 the left leg is shorter than the right. The bones of an average human male skeleton weigh 20 pounds, those of a woman are six pounds lighter.

That unruly member, the tongue of a woman, is also smaller than that of a man, given a man and a woman of equal size and weight. It may be appalling to reflect, but it is nevertheless true, that the muscles of the human jaw exert a force of over 500 pounds.

The symmetry which is the sole intelligible ground for our idea of beauty, the proportion between the upper and lower half of the human body, exists in nearly all males, but is never found in the female. American limbs are more symmetrical than those of any other people. The rocking chair, according to an English scientist, is responsible for the exercise which increases the beauty of the lower limbs. The push which the toes give to keep the chair in motion, repeated and repeated, makes the instep high, the calf round and full, and it makes the ankle delicate and slender.—Exchange.

When Irving Forgot Himself.

Ben Webster, an English actor, told a good story of how he held his own when Sir Henry Irving happened to be absentminded. In the "Lyons Mail" there is a touching scene between Lesques (played by Irving) and his daughter Julie, of which Didier (Mr. Ben Webster) is a perfectly silent witness.

One night Sir Henry, instead of making his long speech, appealed in trembling tones to Mr. Webster: "Speak to her, Didier; speak to her!" Didier was dumbfounded. There was an awful pause. Irving, quite unconscious of his own mistake, frowned wrathfully at the young actor, but Mr. Webster, equal to the occasion, gave way to a burst of tears and exclaimed, "I cannot; you know I cannot speak!" and turned his back on the audience.

Then Sir Henry picked up his lines with a start, and it was observed that Didier's shoulders shook with emotion!—Louisville Courier-Journal.

Verdi and Bismarck on Titles.

The composer Verdi was offered a title of nobility by King Victor Emmanuel. It was intended that he should be created Marquis or Comte de Busseto, after the estate upon which he lived. The composer refused the offer energetically. He considered that Verdi was somebody and that the Marquis de Busseto would be nobody.

Even Bismarck was unable to parry a blow of this character. When the young emperor broke with him, he conferred upon him the title of Duke of Lauenbourg. Bismarck received the parchment with this exclamation:

"A pretty name! It will be handy for travelling incognito."

Some days after a parcel arrived at Varzin bearing the address "Mme. la Duchesse de Lauenbourg."

Bismarck, to whom it was delivered, being then at table, arose and, offering the letter to his wife, remarked ironically:

"Duchess, enchanted to make your acquaintance!"

TO RETURN RELICS.

President McKinley Replies That the Lee Family Shall Have the Relics of George Washington.

Washington, April 27.—Senator John W. Daniel, of Virginia, several days ago addressed a letter to President McKinley endorsing the application of General George Washington Custis Lee, submitted by him on behalf of Miss Mary Custis Lee, his sister, for restoration of the relics of General George Washington, of which he (General Lee) became owner on the death of his mother, who was the wife of General Robert E. Lee. In reply President McKinley informed Senator Daniel that it will afford him great satisfaction to have the articles, which are now in the Smithsonian institution, restored to the present head of a historic family.

The president in part said that all the government did was to accept the trust of their custody at a time when the owner could not protect them, and they were consequently exposed to the risk of destruction.

Mr. Wm. Anderson, of 315 Lisbon street, says: "During the civil war I enlisted and served three years in the Forty-second Ohio infantry. From the exposure during the war I attribute the severe aching and weakness in the loins and muscular rheumatism of recent years which all seemed to center in my kidneys. In the morning when first getting up I was very dizzy until I had moved around for a time and my nervous system became affected causing a fluttering and fulness around the heart. Seeing an advertisement in the paper I got Doan's Kidney Pills at W. & W. pharmacy and took them. A few doses gave me relief. The improvement was gradual and continued as the medicine got more thoroughly into my system. I firmly believe that Doan's Kidney Pills will in every case, as they did in mine, prove the justness of the claims made for them."

**TO RETURN RELICS.**

President McKinley Replies That the Lee Family Shall Have the Relics of George Washington.

Washington, April 27.—Senator John W. Daniel, of Virginia, several days ago addressed a letter to President McKinley endorsing the application of General George Washington Custis Lee, submitted by him on behalf of Miss Mary Custis Lee, his sister, for restoration of the relics of General George Washington, of which he (General Lee) became owner on the death of his mother, who was the wife of General Robert E. Lee. In reply President McKinley informed Senator Daniel that it will afford him great satisfaction to have the articles, which are now in the Smithsonian Institution, restored "to the present head of a historic family."

The president in part said that all the government did was to accept the trust of their custody at a time when the owner could not protect them, and they were consequently exposed to the risk of destruction.

Grant Birthday Banquet.

Pittsburg, April 27.—The Americus Club will celebrate Grant's birthday by a banquet at the Hotel Schenley tonight. Among those expected to attend are Attorney General Knox, Senator Fairbanks, Congressman Sibley, Congressman Grosvenor, General Warren, General Young, Captain Sartoris, grandson of Grant, and others.

Mr. Wm. Anderson, of 315 Lisbon street, says: "During the civil war I enlisted and served three years in the Forty-second Ohio infantry. From the exposure during the war I attribute the severe aching and weakness in the loins and muscular rheumatism of recent years which all seemed to center in my kidneys. In the morning when first getting up I was very dizzy until I had moved around for a time and my nervous system became affected causing a fluttering and fullness around the heart. Seeing an advertisement in the paper I got Doan's Kidney Pills at W. & W. pharmacy and took them. A few doses gave me relief. The improvement was gradual and continued as the medicine got more thoroughly into my system. I firmly believe that Doan's Kidney Pills will in every case, as they did in mine, prove the justness of the claims made for them."

NO POWER TO TREAT

The Cuban Commission Can Only Seek Information at Washington.

THEIR IMPRESSIONS FAVORABLE

Betancourt Said the Discussion Had Shown Earnest Effort on Both Sides to Deal Fairly—Meeting at White House Produced Good Effect.

Washington, April 27.—The cabinet meeting, the last one before the president's departure for the Pacific coast, was occupied almost exclusively with the discussion of the visit of the Cuban commission. Secretary Root, who has been conducting the conferences with the commission, submitted rather exhaustively an account of the interviews he had had with them. He told the president and the cabinet of the objections which the commissioners raised to the Platt amendment and of some of the misunderstandings regarding it under which they seemed to be laboring. There was a general exchange of opinion among the members of the cabinet regarding the situation and in light of the views expressed. Secretary Root will hold another conference with the commissioners before their departure. The president will not see them again, except to formally bid them farewell. While there are one or two points upon which some of the members of the commission are insistent, the general feeling of the cabinet, as reflected in their exchange of views, was that the result of the commission's visit could not but be extremely beneficial in removing erroneous impressions which, it was said, were entertained in the constitutional convention regarding the purpose of the United States. Altogether, it would not be too much to say that the cabinet generally are hopeful that the convention, after hearing the report of the commission, will be much more disposed to accept our terms than they have been heretofore.

General Betancourt Interviewed.

General Pedro E. Betancourt, one of the most influential members of the delegation, Friday, in response to inquiries, made some interesting general statements as to the purposes of the visit and the impressions which the delegates have obtained. He said in part:

"It should be understood that we are here for the purpose of studying the entire question of relations between the United States and Cuba, more particularly as presented by the Platt amendment. But it is a mistake to think that we have presented any proposition, or that there is anything thus far beyond an effort to learn the views entertained by the authorities here on many points involved, and at the same time to convey to them the views held by the convention which we are here to represent. We are not clothed with any plenipotentiary powers, and cannot present plans which occur to us."

"There is absolutely nothing of that kind. On the contrary, the Platt amendment has been before the people of Cuba for some time and there have been varying views as to the meaning and construction of some of its terms. Now we come here to secure information from those best able to give it, as to the meaning of all these points. Thus far, I think I can say for myself and my associates that the discussion has produced an agreeable impression upon us. It has shown a very earnest effort on both sides to deal with the subject in such a spirit of fairness and honor as would reach a conclusion satisfactory to all concerned."

Pleased With the Dinner.

"The dinner given at the executive mansion last night afforded the delegates an opportunity to meet not only the president and members of his cabinet, but many of your foremost senators and public men in all walks of life. I can assure you that the meeting produced upon us a most favorable impression. We were received not only with courtesy and regard, but even with affection. Your leading public men took occasion to greet each one of us with assurances of deep friendly and personal interest in the maintenance of the most cordial relations between Cuba and the United States. It was made plain to us that your public men approached this subject in a spirit of disinterestedness and of unselfishness and that their concern was chiefly as to the interests of Cuba. In so far as the interest of the United States naturally might be involved, the view was maintained that this was for the ultimate interest and benefit of Cuba."

To Exchange Information.

"As to the details of our further discussion, the members of the delegation do not feel at liberty now to go into particulars, although, as I have said, the purpose is chiefly to secure and to give information, and then to go back and report to the constitutional convention as to how the views in Cuba are received among the responsible authorities here. Although the president is about to leave on his western trip, yet he has asked us to confer fully with Secretary Root, who has a most thorough knowledge

REVISION IS FAVORED

Presbyterian Committee Makes a Decision In Regard to the Creed.

NEW STATEMENT OF DOCTRINE

To Be Issued as Supplement to Confession of Faith—Also Revision of Confession Itself by Added Paragraph or Change In Text.

Pittsburg, April 27.—The committee on the revision of the creed, appointed by the general assembly of the Presbyterian church, in May of last year, while the assembly was in session at St. Louis, which held sessions at the Monongahela house in this city, prepared a report for submission to the next general assembly, which meets in Philadelphia on May 16.

In speaking of the matter, Dr. C. A. Dickey, of Philadelphia, chairman of the committee, gave the following statement of the history of the committee and its work: "The committee on creed revision was appointed by the last general assembly to correspond with the church at large and learn the desire of the different presbyteries with regard to a revision of the standard of the church.

The committee met in Saratoga last August and formulated four questions, which were sent to the different presbyteries for answer. These questions propounded queries as to whether it was advisable to change the creed or not, and if a change were decided upon, concerning the form such a change should take.

"Another meeting of the committee was held in December last in Washington and the answers received from the different presbyteries were tabulated. It was found that there was a very distinct sentiment in favor of some sort of change in the statement of the creed. As to the form such a change should take, the answers from the presbyteries differed. A majority of the presbyteries expressed themselves in favor of a brief restatement of the creed. On the other hand, a strong minority favored the retention of the old statement, but wished it amended in some manner.

"The methods of change advocated by the minority of the presbyteries and upheld by a minority of the committee, demanded changes in the text of the creed, but no one voice was raised in favor of any change which should at all touch the reformed system of doctrine. Since those answers have been received the committee has engaged in trying to follow the wishes of the church in the matter, and, while there have been differences of opinion about the precise manner of change, a change is advocated by all.

"After a pleasant and harmonious meeting of two days, the committee decided upon two important features of the plan for revision, which will be presented to the general assembly. These features are as follows, and are the most urgently demanded by the presbyteries:

"First—A new statement of doctrine to be issued as a supplement to the confession of faith.

"Second—A revision of the confession itself, either by the addition of a declaratory paragraph or a change in the text."

TELEPHONE EXPANSION

Columbiana County Company Acquiring Rights in Jefferson County Towns.

Toronto, O., April 27.—W. E. Crossley, of the Columbiana County Telephone company, with headquarters at Salem, was in Toronto and New Cumberland a few days ago and closed a deal with the Phoenix company for the purchase of the Toronto and New Cumberland exchanges. Inquiry of Miss Emma Allman, operator at Toronto office, confirmed the statement that a deal had been in progress. The two lines have been connected up for over a month by way of the Steubenville Phoenix exchange, the line passing through Knoxville. This brings Toronto into communication with Knoxville, New Somerset and other northwestern towns of the county.

It is the intention of the Columbian County company, states George Maxwell, of Steubenville, and an official of the Phoenix company, to the Commercial, to entirely remodel the exchanges at Toronto and New Cumberland, and new and up-to-date fixtures will be placed in each. Also that more territory will be covered by this new company, the Phoenix officials not having the disposition or time to look after its development.

The new deal does not mean the consolidation of the two companies, says Mr. Maxwell, but their exchanges will still be connected and their business relations most cordial.

THE BIG STORE

BUSINESS BRISK.

Dun's Review Said It Continued So, In Spite of Drawbacks—Advance In Steel Rails.

New York, April 27.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

Business continues very brisk for the season in the fact of the drawbacks, which at times might cause marked hesitation. Chief of these is the floods in many directions, which have interfered with railroad operations and interrupted the distribution of merchandise, and the weather all over the east has been adverse to an increase in retail trade. Barn clearings, however, show that, while speculation has been heavy, there must have been a well-sustained volume of legitimate business, for the gains are 14.1 per cent over 1900 and 18.9 over 1899, outside New York, and 103.0 per cent over 1900 and 84.0 over 1899 at this city. Railroad earnings make similarly encouraging gains. Reports from the interior show special strength in conditions through Missouri, Kansas and Ohio, and the future is full of promise, unless there is misfortune with the crops.

Much unfavorable comment has appeared regarding the advance in steel rails to \$28. Yet the change is only in keeping with recent increase in prices of pig iron and billets. Nominal quotations for many products of iron and steel have long been disregarded in contracts calling for early delivery, and list prices are generally moving up to the representative level.

On new business or export orders it is not unreasonable to make prices for rails on a parity with other products of this industry. Aside from this one operation there is no new development. Pig iron is more quiet, with little taken for delivery beyond July 1. Domestic business in principal lines of manufactured steel is so active as to discourage foreign buying, but machinery and specialty mills are exporting freely. It is reported from Pittsburg that mills are not crowded by demand to the extent noticed in 1899, but productive capacity has largely expanded.

After a prolonged period of waiting for definite crop news the cereal markets suddenly awoke to unusual activity. Much of the increased trading and sharp advance in prices resulted from clever manipulation by a single western speculator, who compelled the short contingent to cover May corn contracts at the highest prices of the season. While there was an element of strength in the reports of late planting, slow movement of the old crop held greater influence, as stocks available for delivery were light. Wheat has risen sharply, partly in sympathy with corn, but there was bad news regarding the German crop, and some damage occurred at the west.

Wool is fairly steady, and this is the best that can be said. Eastern markets are quiet, with light demand from the mills. There is less disposition to secure raw material in advance of needs, although much faith is expressed regarding the stability of prices. Reports from many correspondents in the chief sheep raising states indicate that a larger clip than last year may be expected, and the condition is satisfactory. Growers are slow to make contracts at the present level of prices, but the large percentage of the old crop carried over and heavy stocks at the east give little encouragement to hope for higher prices until demand for manufactured goods shows material improvement.

DEFENCE OF AMENT.

RETURNED MISSIONARY TAKES EXCEPTION TO CHARGES.

Explains the Transaction In Which Chinese Goods Were Sold to Feed Natives.

San Francisco, April 27.—Rev. W. S. Ament, of the American board of foreign missions of the Congregational church, whose collection of indemnity for damages done by Boxers in China has caused considerable discussion, takes vigorous exception to the criticisms made by Mark Twain and others as to the alleged misconduct of the missionaries. He said:

"We found ourselves at the close of the siege with 500 native Christians upon our hands, no food, no clothing, no money and every Christian house burned.

"On the very day of the arrival of the allied forces we were informed that we must leave the British legation, as it was to be used as headquarters for the officers of the British army. I immediately thought of a Mongol prince, Hsi Ling, who was an ally of the Boxers and whose place was the headquarters of Boxers and blacklegs. We found the prince's place entirely empty and the next day we brought up our native Christians and occupied the deserted place. In that house and its neighboring houses that we occupied we put more

than 400 people. We took only abandoned property.

"The only food in the prince's palace was a bit of rice. We decided to sell the clothing and curios found upon the premises and realized \$2,500 in gold. They were bought by British and American officers at a private sale of two weeks' duration.

"Native Christians brought us furs and sables, which they had purchased at a low price from wealthy Chinese, who feared they might be looted by the military people and who were willing to dispose of them for a little money.

"The articles were sold at our place to British and other officers. I considered that that was a fair, honest speculation, which injured nobody and that benefited many people.

"There may have been some looted goods taken, but it was without my knowledge. The Russians and Sikh soldiers were selling off truck very cheap, but my people did not do the looting."

REVISION IS FAVORED

Presbyterian Committee Makes a Decision In Regard to the Creed.

NEW STATEMENT OF DOCTRINE

To Be Issued as Supplement to Confession of Faith—Also Revision of Confession Itself by Added Paragraph or Change In Text.

Pittsburg, April 27.—The committee on the revision of the creed, appointed by the general assembly of the Presbyterian church, in May of last year, while the assembly was in session at St. Louis, which held sessions at the Monongahela house in this city, prepared a report for submission to the next general assembly, which meets in Philadelphia on May 16.

In speaking of the matter, Dr. C. A. Dickey, of Philadelphia, chairman of the committee, gave the following statement of the history of the committee and its work: "The committee on creed revision was appointed by the last general assembly to correspond with the church at large and learn the desire of the different presbyteries with regard to a revision of the standard of the church.

The committee met in Saratoga last August and formulated four questions, which were sent to the different presbyteries for answer. These questions propounded queries as to whether it was advisable to change the creed or not, and if a change were decided upon, concerning the form such a change should take.

"Another meeting of the committee was held in December last in Washington and the answers received from the different presbyteries were tabulated. It was found that there was a very distinct sentiment in favor of some sort of change in the statement of the creed. As to the form such a change should take, the answers from the presbyteries differed. A majority of the presbyteries expressed themselves in favor of a brief restatement of the creed. On the other hand, a strong minority favored the retention of the old statement, but wished it amended in some manner.

"The methods of change advocated by the majority of the presbyteries and upheld by a minority of the committee, demanded changes in the text of the creed, but no one voice was raised in favor of any change which should at all touch the reformed system of doctrine. Since these answers have been received the committee has been engaged in trying to follow the wishes of the church in the matter, and while there have been differences of opinion about the precise manner of change, a change is advocated by all.

"After a pleasant and harmonious meeting of two days, the committee decided upon two important features of the plan for revision, which will be presented to the general assembly. These features are as follows, and are the most urgently demanded by the presbyteries:

"First—A new statement of doctrine to be issued as a supplement to the confession of faith.

"Second—A revision of the confession itself, either by the addition of a declaratory paragraph or a change in the text."

TELEPHONE EXPANSION

Columbiana County Company Acquiring Rights in Jefferson County Towns.

Toronto, O., April 27.—W. E. Crossley, of the Columbiana County Telephone company, with headquarters at Salem, was in Toronto and New Cumberland a few days ago and closed a deal with the Phoenix company for the purchase of the Toronto and New Cumberland exchanges. Inquiry of Miss Emma Allman, operator at Toronto office, confirmed the statement that a deal had been in progress. The two lines have been connected up for over a month by way of the Steubenville Phoenix exchange, the line passing through Knoxville. This brings Toronto into communication with Knoxville, New Somerset and other northwestern towns of the county.

It is the intention of the Columbiana County company, states George Maxwell, of Steubenville, and an official of the Phoenix company, to the Commercial, to entirely remodel the exchanges at Toronto and New Cumberland, and new and up-to-date fixtures will be placed in each. Also that more territory will be covered by this new company, the Phoenix officials not having the disposition or time to look after its development.

The new deal does not mean the consolidation of the two companies, says Mr. Maxwell, but their exchanges will still be connected and their business relations most cordial.

THE S. G. HARD CO.,**THE BIG STORE****BUSINESS BRISK.**

Dun's Review Said It Continued So, In Spite of Drawbacks—Advance In Steel Rails.

New York, April 27.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

Business continues very brisk for the season in the fact of the drawbacks, which at times might cause marked hesitation. Chief of these is the floods in many directions, which have interfered with railroad operations and interrupted the distribution of merchandise, and the weather all over the east has been adverse to an increase in retail trade. Bank clearings, however, show that, while speculation has been heavy, there must have been a well-sustained volume of legitimate business, for the gains are 14.1 per cent over 1900 and 18.9 over 1899, outside New York, and 103.0 per cent over 1900 and 84.0 over 1899 at this city. Railroad earnings make similarly encouraging gains. Reports from the interior show special strength in conditions through Missouri, Kansas and Ohio, and the future is full of promise, unless there is misfortune with the crops.

Much unfavorable comment has appeared regarding the advance in steel rails to \$28. Yet the change is only in keeping with recent increase in prices of pig iron and billets. Nominal quotations for many products of iron and steel have long been disregarded in contracts calling for early delivery, and list prices are generally moving up to the representative level. On new business or export orders it is not unreasonable to make prices for rails on a parity with other products of this industry. Aside from this one operation there is no new development. Pig iron is more quiet, with little taken for delivery beyond July 1. Domestic business in principal lines of manufactured steel is so active as to discourage foreign buying, but machinery and specialty mills are exporting freely. It is reported from Pittsburg that mills are not crowded by demand to the extent noticed in 1899, but productive capacity has largely expanded.

After a prolonged period of waiting for definite crop news the cereal markets suddenly awoke to unusual activity. Much of the increased trading and sharp advance in prices resulted from clever manipulation by a single western speculator, who compelled the short contingent to cover May corn contracts at the highest prices of the season. While there was an element of strength in the reports of late planting, slow movement of the old crop held greater influence, as stocks available for delivery were light. Wheat has risen sharply, partly in sympathy with corn, but there was bad news regarding the German crop, and some damage occurred at the west.

Wool is fairly steady, and this is the best that can be said. Eastern markets are quiet, with light demand from the mills. There is less disposition to secure raw material in advance of needs, although much faith is expressed regarding the stability of prices. Reports from many correspondents in the chief sheep raising states indicate that a larger clip than last year may be expected, and the condition is satisfactory. Growers are slow to make contracts at the present level of prices, but the large percentage of the old crop carried over and heavy stocks at the east give little encouragement to hope for higher prices until demand for manufactured goods shows material improvement.

DEFENCE OF AMENT.**RETURNED MISSIONARY TAKES EXCEPTION TO CHARGES.**

Explains the Transaction In Which Chinese Goods Were Sold to Feed Natives.

San Francisco, April 27.—Rev. W. S. Ament, of the American board of foreign missions of the Congregational church, whose collection of indemnity for damages done by Boxers in China has caused considerable discussion, takes vigorous exception to the criticisms made by Mark Twain and others as to the alleged misconduct of the missionaries. He said:

"We found ourselves at the close of the siege with 500 native Christians upon our hands, no food, no clothing, no money and every Christian house burned.

"On the very day of the arrival of the allied forces we were informed that we must leave the British legation, as it was to be used as headquarters for the officers of the British army. I immediately thought of a Mongol prince, Hsi Ling, who was an ally of the Boxers and whose place was the headquarters of Boxers and blacklegs. We found the prince's place entirely empty and the next day we brought up our native Christians and occupied the deserted place. In that house and its neighboring houses that we occupied we put more

than 400 people. We took only abandoned property.

"The only food in the prince's palace was a bit of rice. We decided to sell the clothing and curios found upon the premises and realized \$2,500 in gold. They were bought by British and American officers at a private sale of two weeks' duration.

"Native Christians brought us furs and sables, which they had purchased at a low price from wealthy Chinese, who feared they might be looted by the military people and who were willing to dispose of them for a little money.

"The articles were sold at our place to British and other officers. I considered that that was a fair, honest speculation, which injured nobody and that benefited many people.

"There may have been some looted goods taken, but it was without my knowledge. The Russians and Sikh soldiers were selling off truck very cheap, but my people did not do the looting."

Moving from Irondale—The household goods of H. M. Hughes were received at the freight station yesterday from Irondale.

Victim of Rheumatism—Rev. W. H. Gladden, of the M. P. church, is laid up with something like muscular rheumatism. Secretary Wright, of the Y. M. C. A., will occupy the pulpit tomorrow.

Memorial Day Committee—Commander J. N. Rose, of the Grand Army, at last night's meeting, appointed the Memorial day committee. It will consist of N. A. Frederick, M. Anderson and J. C. Allison.

Hurt on a Car—George Rigby, of Fifth street, was standing on the steps of a street car as he was on his way to work yesterday. The car ran into a hay wagon. Mr. Rigby's leg was caught and badly bruised.

New Trial Asked—A motion was filed yesterday for a new trial in the case of F. E. Grosshans versus Jesse Fisher, which was heard before Justice McLane this week. No time has yet been set for a hearing of the arguments.

Goes to New York State—John Lane, who has been employed as a motorman on the East Liverpool street car line for the past four weeks, has resigned and left this morning for Courtland, N. Y., where he has accepted a similar position.

Conductor's Hand Hurt—The trolley on street car No. 9 flew off the wire yesterday afternoon and Conductor John Whan, in catching the rope, had his left hand drawn against the window in the vestibule, badly mashing the two first fingers. He is able to be on duty today.

Patriarchs' Picnic—Canton Rhodes, No. 73, Patriarchs Militant, at a meeting last evening, decided to hold its first annual basket picnic at Rock Springs on June 5. They will probably extend an invitation to all Odd Fellows and cantons within a radius of 75 miles to be present and have the greatest picnic of the season.

A Historic Die.

On the desk of the secretary of one of the oldest copper manufacturing firms in this city is a steel die which has served as a paperweight for 35 years, and the coins struck off by it are now, for the most part, in the hands of collectors. This die was used for striking copper tokens which symbolized the contest between President Andrew Jackson and the old United States bank of Philadelphia in 1832. The engraving on the die represents President Jackson, sword in hand and apparently standing in a money chest. Around the central figure is stamped Jackson's expression, "I take the responsibility," which arose out of his controversies with the bank.

When this die was made, the predecessors of the present company not only manufactured copper wire, but also made a special feature of copper coins, chiefly for South American countries and for private business firms which made a practice of issuing their own copper coins to be redeemed by them afterward. During the civil war and just preceding it many private corporations issued tokens which circulated as pennies, and some of them are now worth a great many times their original value to collectors.—New York Sun.

Paid His Debt.

When Joe Chamberlain entered the house of commons, he was anxious to try his oratorical powers. A certain leading politician, who was piloting a bill through the house, was approached by one of Mr. Chamberlain's friends, who said:

"Chamberlain would like to speak on the bill. Can you give him a chance?"

"Well, you know, I think it would not do. He's a new member, and nobody knows what the dicken he might say."

Time went on. Chamberlain gained ground—became a power in parliament. The leading politician, on the contrary, had made a series of blunders which had imperiled his position. An election was imminent. Forgetting his previous record, he thought that if he could get Mr. Chamberlain to speak for him he would strengthen his position. He, therefore, applied to the right honorable gentleman.

The latter calmly surveyed him through his eyeglass and said:

"Well, you know, I think it would not do. I am a new member, and nobody knows what the dicken I might say!"

TRAIN ROBBER HUNG.**KETCHUM'S HEAD SEVERED FROM HIS BODY.**

Confessed, In Jail, to Certain Crimes and Told of Others—Wrote to the President.

Clayton, N. M., April 27.—Thomas E. Ketchum, alias "Black Jack," the notorious outlaw, who had terrorized the people of the southwest for about the past 15 years, was hanged here for train robbery. His head was severed from the body by the rope, as if by a guillotine. The headless trunk pitched forward toward the spectators, and blood spattered upon some near the scaffold. The head remained in the sack and fell into the pit.

The execution took place inside a stockade built for the occasion. One hundred and fifty witnesses saw the execution. When Ketchum mounted the scaffold his face was pale, but he showed no fear. A priest stood at his side as the rope was being adjusted. The condemned man had consented to spiritual attendance at the last moment. Ketchum declined to make a speech. He muttered "good-bye," then said, "Please dig my grave very deep," and as the cap was drawn over his face, he shouted: "Let her go."

The hanging occurred Friday afternoon. Ketchum spent the greater part of the morning in reviewing his past life, during which time he displayed perfect control of himself, frequently referring to his momentarily expected death in a violent manner. He cursed the railroad and express companies and the officers who were

The Word Gazette.

The word "gazette" is from the name of an old Venetian coin worth about one-half cent of our money. The name is applied to newspapers because it was the sum charged for reading the first written journals that made their appearance in 1550. After the paper was read it was handed back to the owner, who charged the next comer a gazette for taking a peep at it.

Patriarchs' Picnic—Canton Rhodes, No. 73, Patriarchs Militant, at a meeting last evening, decided to hold its first annual basket picnic at Rock Springs on June 5. They will probably extend an invitation to all Odd Fellows and cantons within a radius of 75 miles to be present and have the greatest picnic of the season.

A Historic Die.

On the desk of the secretary of one of the oldest copper manufacturing firms in this city is a steel die which has served as a paperweight for 35 years, and the coins struck off by it are now, for the most part, in the hands of collectors. This die was used for striking copper tokens which symbolized the contest between President Andrew Jackson and the old United States bank of Philadelphia in 1832. The engraving on the die represents President Jackson, sword in hand and apparently standing in a money chest. Around the central figure is stamped Jackson's expression, "I take the responsibility," which arose out of his controversies with the bank.

When this die was made, the predecessors of the present company not only manufactured copper wire, but also made a special feature of copper coins, chiefly for South American countries and for private business firms which made a practice of issuing their own copper coins to be redeemed by them afterward. During the civil war and just preceding it many private corporations issued tokens which circulated as pennies, and some of them are now worth a great many times their original value to collectors.—New York Sun.

Paid His Debt.

When Joe Chamberlain entered the house of commons, he was anxious to try his oratorical powers. A certain leading politician, who was piloting a bill through the house, was approached by one of Mr. Chamberlain's friends, who said:

"Chamberlain would like to speak on the bill. Can you give him a chance?"

"Well, you know, I think it would not do. He's a new member, and nobody knows what the Dickens he might say."

Time went on. Chamberlain gained ground—became a power in parliament. The leading politician, on the contrary, had made a series of blunders which had imperiled his position. An election was imminent. Forgetting his previous record, he thought that if he could get Mr. Chamberlain to speak for him he would strengthen his position. He, therefore, applied to the right honorable gentleman.

The latter calmly surveyed him through his eyeglass and said:

"Well, you know, I think it would not do. I am a new member, and nobody knows what the Dickens I might say!"

TRAIN ROBBER HUNG.**KETCHUM'S HEAD SEVERED FROM HIS BODY.**

Confessed, In Jail, to Certain Crimes and Told of Others—Wrote to the President.

Clayton, N. M., April 27.—Thomas E. Ketchum, alias "Black Jack," the notorious outlaw, who had terrorized the people of the southwest for about the past 15 years, was hanged here for train robbery. His head was severed from the body by the rope, as if by a guillotine. The headless trunk pitched forward toward the spectators, and blood spattered upon some near the scaffold. The head remained in the sack and fell into the pit.

The execution took place inside a stockade built for the occasion. One hundred and fifty witnesses saw the execution. When Ketchum mounted the scaffold his face was pale, but he showed no fear. A priest stood at his side as the rope was being adjusted. The condemned man had consented to spiritual attendance at the last moment. Ketchum declined to make a speech. He muttered "good-bye," then said, "Please dig my grave very deep," and as the cap was drawn over his face, he shouted: "Let her go."

The hanging occurred Friday afternoon. Ketchum spent the greater part of the morning in reviewing his past life, during which time he displayed perfect control of himself, frequently referring to his momentarily expected death in a violent manner. He cursed the railroad and express companies and the officers who were

The Word Gazette.

The word "gazette" is from the name of an old Venetian coin worth about one-half cent of our money. The name is applied to newspapers because it was the sum charged for reading the first written form that made their appearance in 1550. After the paper was read it was handed back to the owner, who charged the next comer a gazette for taking a peep at it.

May Wind Up Business.

Cincinnati, April 27.—Directors of the United States Debenture company decided to ask permission of the court to wind up its business and to distribute its assets, amounting to \$84,000. It was said to be able to pay in full the amount received from certificate holders.

This action followed the report of A. B. Benedict, referee, which was against the legality of the debenture business.

EVENING NEWS REVIEW.

16TH YEAR. NO. 271.

EAST LIVERPOOL, O., SATURDAY, APRIL 27, 1901.

TWO CENTS

THE FATAL OPEN FIRE-PLACE CLAIMS ANOTHER CHILD VICTIM

Little Mary, Aged 4, Daughter of Ellis Shriver, Was at Play When Her Clothes Took Fire.

SUFFERED ALL NIGHT AND DIED THIS MORNING MUCH VALUABLE DATA IN THEM

Her Mother Was Upstairs, Preparing the Children's Beds and the Little Ones Were Romping When Mary's Night-Gown Caught Fire at the Grate—Screams Brought Mrs. Shriver Too Late—She Was Also Painfully Burned While Trying to Save the Child.

Mary Gordon Shriver, aged 4 years, daughter of Ellis T. Shriver, was horribly burned at her home in Drury lane at 9 o'clock last night, and died this morning.

Mrs. Shriver, who was preparing to retire, had gone to the second story to arrange the beds for the children and had not been absent five minutes when the accident occurred. The little one was with her brother, Willie, in the middle room downstairs, and assisted by him had succeeded in donning her night gown.

The children were playing about the room when Mary passed near the grate and her gown caught fire. The fireplace is a dangerous one, being close to the front of the chimney and having no protection whatever.

Willie grasped the situation in an instant and gave the alarm. By this time the child had become conscious of her danger, and her screams attracted the mother. When Mrs. Shri-

ver arrived on the scene the girl was enveloped in flames.

Unmindful of her own danger the mother hastened to the assistance of the child. She succeeded in tearing the gown from the little one, but not before Mary had been terribly burned about the back and legs.

Mrs. Shriver received a number of painful burns on the hands and arms, but was not conscious of it until some time during the night.

Drs. Elliott and Hobbs were summoned and made the child as comfortable as possible, although the injuries were known to be necessarily fatal, owing to the shock which had already set in. She died at 9:50 this morning.

Mr. Shriver was absent from home, having gone to Wheeling yesterday afternoon. He returned this morning and was present at the bedside when the child died.

Mary was the youngest of four children, and was the life of the household. No arrangements have yet been made for the funeral.

eral of the heirs from East Liverpool were present, including Mrs. J. B. Williams, of College street.

STILL HANGING FIRE.

PLUMBERS' GRIEVANCES ARE NOT YET ADJUSTED.

Indications That the Dispute Will Not be Fully Settled by May.

From present indications the disagreement between their employ HAR agreement between the boss plumbers and their employees will not be settled by the first of May.

The employers have stated their objections and the journeymen have not yet held a meeting to consider them. This being the case the individual opinions of the men was all that could be gathered.

The regular meeting of the union will be held on Tuesday, May 7, and it is not known whether or not a special meeting will be called.

BADLY BURNED.

MRS. JOHN WEST'S CLOTHING CAUGHT AT A STOVE.

Arms, Hands And Hair Scorched. Husband's Aid Saved Her From Worse Fate.

Mrs. John West, who resides in one of Shrader's houses, came near being seriously burned this morning when her dress caught fire from the cooking stove. Her arms and hands were painfully though not dangerously burned and her hair was singed.

Mrs. West was wearing a light wrapper and her husband, who happened to be in the kitchen at the time, succeeded in tearing it from her person before any serious injury resulted. His arms and hands were also burned.

BITTEN BY A DOG.

A Boy Attacked by a Vicious Animal Which Was Shot Later.

Frank Hill, aged 14 years, of Avondale street, was yesterday afternoon bitten on the right leg by a dog said to be owned by a man named Starkey. The animal was shot.

GEORGE HOLDS ON TO THE RECORDS

Claims Some Books of the City Engineer Are His Personal Property.

Council Takes the View That They Belong to the City And a Suit May Be Instituted for Recovery—Law on the Matter.

There promises to be a great deal of trouble and some litigation before City Engineer Kelly is rightfully installed in the position.

When Mr. Kelly's appointment was confirmed by the council a motion was made that a committee be appointed to look after the property belonging to the city which still remained in the hands of Engineer George.

Although the committee has made a number of attempts to carry out the instructions, they have been unsuccessful. Yesterday afternoon Councilmen Cripps, McLane and Bullock paid a visit to the old engineer, but accomplished nothing. Mr. George takes the stand that any information which he now possesses rightfully belongs to him personally, as he regards the city as being merely an employer the same as any of his other clients. He does not deny that he has a vast quantity of data that would be of incalculable value to the city in the engineering department, but that it is his own property. He told the committee yesterday that Engineer Kelly has everything that belongs to the city and everything that is necessary to conduct the affairs of the city.

The council is inclined to take a different view of the matter. It is true the present engineer has the original plans of a majority of the streets and alleys, but there is another original which one of the city fathers term of original original; that is, a revised plan, and contains all the alterations and new lines that have been fixed since the first survey was made. Another noticeable feature of the controversy is that the council claims George has turned over all the data for completed thoroughfares and still retains that in connection with uncompleted improvements, such as Calcutta road and Pennsylvania avenue. There have been lines fixed and marks made on houses and trees, the location of which are known only to Engineer George. Whether there is any memorandum of these or not, the city takes the stand that the data rightfully belongs to the office and should be left there.

The action of the ex-engineer has caused the members of council to determine upon a plan to recover the property through the courts. Section 6842, chapter 4 of the Revised Statutes, covers the matter in every detail, and it is likely the solicitor will be instructed to take this course to bring about the desired result. The section reads:

"An officer, agent, servant or employee of any person who embezzles or converts to his own use, or fraudulently takes or makes way with, or secretes with intent to embezzle or convert to his own use anything of value which shall come into his possession by virtue of his employment or appointment as such an officer, servant or employee, and an agent, clerk, servant or employee who embezzles or converts to his own use, or conceals with such intent anything of value that shall come into his possession by virtue of his office or employment, is guilty of embezzlement, and shall be punished as for the larceny of the thing embezzled."

The members of council claim that every figure and every item of data now in the possession of Mr. George which he gained while in the discharge of his duties as city engineer, is the property of the city, under the section just quoted, and the propose taking this means of procuring the documents and figures.

AN OLD MAN'S MISDEEDS

LEAD TO HIS ARREST AND A FINE OF \$50.

Likely to Go to Workhouse—His Disgraceful Conduct Proven By Witnesses.

The most revolting case with which the police department have been called upon to deal in a long time is just now pending before Mayor Davidson.

William Race was given a hearing this morning on a very serious charge, and one that may lead him where he will annoy no one for some time.

Race lives at the corner of Third street and Peach alley, and has within the past few weeks been acting in a manner calculated to win the contempt and condemnation of the entire community. So bold has he become that the parents of small children have deemed it wise to keep their little ones off the street. Frank Byers and William Bridge made complaint to the authorities on the strength of reports made by their children with reference to the man's actions.

Chief Thompson had a warrant issued early yesterday morning, but Race was not taken until late in the evening. He was brought to jail and locked up.

Since the complaint against Race has been filed it has occurred to the authorities that he may be the same individual who has been annoying a number of girls on Pennsylvania avenue.

This morning considerable time was spent in an attempt to fix a number of other offenses of a like character upon Race, but it was not successful.

At 10:30 Race was brought into the presence of a little girl who had a thrilling experience with a man on Pennsylvania avenue some time ago, but she was unable to identify him.

He was then taken before the mayor, and after the charge had been read Race stated he presumed there would be no use in standing trial, as he had been caught and supposed he was guilty. The mayor promptly fined him \$50 and costs. He will stand committed to the Stark county workhouse until fine and costs are paid.

Mayor Davidson completed the sentence with this remark: "I want to say right here, Mr. Race, if you ever conclude to return to East Liverpool and are arraigned in this court on an offense of this kind again, I will use my best endeavors to procure for you a life sentence."

DYNAMITE DID IT.

BROUGHT UP THE BODY OF LITTLE HOUSTON KELLY.

Searchers Were About to Give Up When the Experiment Was Tried.

Twenty-four hours after he lost his life in the waters of Little Yellow creek at Wellsville, the body of little Houston Kelly, the six-year-old son of E. S. Kelly, was recovered today.

The searchers were about to give up, when it was decided to explode a stick of dynamite in the water. This was done and the body came up. It was found only a hundred feet from the bridge where the boy fell in and was not disfigured in the least.

SUES THE BANK FOR A DEPOSIT

Thompson Firm, of Salineville, Made Defendant In an Action For \$600.

EAST LIVERPOOL DIVORCE SUIT

Will Be Taken Up in Common Pleas Court Next Week—Auditor Adams Arranging for Appraisement of Railway Property.

Lisbon, April 27.—(Special)—Elmer W. Lafferty, administrator of the estate of Hannah Bettis, of Salineville, entered suit today against the H. A. Thompson Banking company, of that town, to recover \$600. He claims that in July, 1899, Mrs. Bettis deposited this amount in the bank, taking a certificate of deposit for the money; that at different times he has demanded the payment of the certificate, but that it has been refused him; that a few days ago the defendant notified him that he must bring suit to recover the amount.

The April term of common pleas court will open at 10 o'clock Monday morning, and promises a busy week.

After the grand jury has been empaneled the case of Mary Calhoun vs. William Calhoun, of East Liverpool, will be called. Action was filed asking for divorce and a number of witnesses have been subpoenaed.

Judge Boone today appointed Theresa McCaskey as guardian of Margaret Grace McCaskey, of Center township, with \$500 bond.

Lizzie Winder, guardian, secured an order of private sale for two lots in Hanoverton and sold them to L. H. Lightcap. The sale was confirmed.

Auditor Adams will be in Cleveland on May 10 and May 17 to meet the auditors of the different counties through which the C. & P. and Erie railroads pass, to fix the valuations of the railroad properties. The former will be appraised on May 10 and the latter on the 17th. The Ft. Wayne railroad will be appraised at Canton on May 24. The time for appraising the Pittsburg, Lisbon & Western railroad, the Salem railroad and the different street railways in the county has not been set.

Henry Cartwright and Miss Lucinda Shafsteen, of Unity township; Elba R. Wollam and Miss Blanche March, both of East Liverpool, have been granted marriage licenses.

BURGLARS' BIG HAUL

Young Mr. Simms has been employed on a railroad on the Pacific coast. He will probably remain here. He is only 16 years of age, weighs 192 pounds, and is 6 feet 2 inches tall. He has been absent two years. The climate appears to agree with him.

EAST END.**HE HAS FLED.**

WARRANT OUT FOR DAVID MARSHALL'S ARREST.

Drew a Knife and Fought Sandy Grimes Most Furiously.

"Sandy" Grimes preferred a charge of felonious assault against David Marshall in Justice Carman's court yesterday afternoon. Marshall made his escape by skiff to the West Virginia shore before Constable Powell arrived.

It is said that Grimes accused Marshall of scabbing, and the lie was passed. Grimes threw a brick at Marshall. The missile struck his raised arm and, glancing, hit him on the left side of his face. Marshall drew a knife and made at Grimes. They clinched before the knife could be used and fell with Marshall on top. Grimes threw his arms around Marshall and held Marshall's arms close to his body to prevent him from using the knife. Marshall then amused himself by chewing Grimes' nose. Finally the three were parted.

Grimes repaired to the squire's office and made the complaint, while Marshall escaped to West Virginia. Marshall resides above Klondike and Grimes lives in Pennsylvania.

FIRST BASE BALL GAME.**Won By Dixonville Against Harker Pottery Team.**

The first base ball game at Columbian park this year was played yesterday afternoon, when the Harker's pottery team were pitted against the Dixonville nine. The score was 28 to 7 in favor of Dixonville.

Marsh, Moore and Wright ran a foot race at the close, Marsh and Moore gave out when about half way around the track. Wright proved himself a star sprinter on the last half, not knowing that the other fellows had stopped.

Where He Shone.

A Thespian who spent several years trying to get beyond "the carriage awaits milord" station in first class Broadway productions was induced by his brother to join him in the dairy business in the City of Mexico. While on a business trip to this city recently buying new machinery and appliances for his prosperous Mexican creameries he met one of his former companions who was still struggling for an opportunity to "say lines." An exchange of confidences revealed the fact that the former actor was now making a snug fortune in the milk business, and his friend, the persevering player, remarked: "You're all right, Billy. You could never have shone in a theatrical way, but you are a star in a milky way."—New York Sun.

Sciatic Rheumatism Cured After Fourteen Years of Suffering.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around, but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Palm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well?

It is for sale by Alvin H. Bulger, druggist.

Shot In Fight With Wardens.

Akron, O., April 27.—Edward Frye was fatally wounded in an encounter with Game Wardens Ruckle and Fox. Frye and another man were discovered by the wardens in the act of seining at Long Lake. They were called on to surrender and a pistol duel ensued. Frye was shot five times and Ruckle received a slight wound.

Perilla, the 10-month-old daughter of Mr. and Mrs. John H. Peake, who has been very ill for the past several days, is much improved.

1,000,000 WOMEN RELIEVED

Reports received show that Wine of Cardui has brought permanent relief to 1,000,000 suffering women in the last few years. Because of Wine of Cardui, thousands of sufferers, seemingly on the way to premature graves, are now healthy women taking an active interest in the duties of life. Mrs. Mitchell was declining in health when Wine of Cardui "performed a miraculous cure" in her case. She suffered terribly with the agonies of falling of the womb, leucorrhœa and profuse menstruation. The weekly appearance of the menses for two months sapped her vitality until she was little better than a physical wreck. Her nervous system gave way under the terrible pain and aggravation. Then came the trial of Wine of Cardui and the cure. Mrs. Mitchell's experience ought to commend Wine of Cardui to suffering women in words of burning eloquence. The Wine is within the reach of all. Women who try it are relieved. You can get as much benefit as Mrs. Mitchell received. Ask your druggist for Wine of Cardui. Send to the laboratory for the medicine if he tends you a substitute.

WINE OF CARDUI

South Gaston, N. C., May 29, 1899.
Wine of Cardui and Thedford's Black Draught have performed a miraculous cure in my case. I have been a great sufferer from falling of the womb and leucorrhœa, and my menses came every week for two months and became very painful. I was in a bad condition. My husband induced me to try Wine of Cardui and Black-Draught, and now I have no pain. The leucorrhœa has disappeared and now I am in perfect health. Mrs. WILLIE MITCHELL.

Rev. Lyman H. Sherwood Dead.

Lyons, N. Y., April 27.—The Rev. Lyman H. Sherwood, founder and head of the Lyons Musical Academy from 1854 to 1884, is dead at his home here, aged 73 years. He was ordained to the Episcopal ministry in 1850. A son is Prof. William H. Sherwood, pianist and composer, of Chicago.

Very Meek.

"Did you trump my ace, dear?" asked Mr. Meekton, who was his wife's partner at whist.

"I did," she rejoined sternly. "What of it?"

"I merely inquired to relieve my mind," he answered, with a gentle smile. "It is a great comfort to know you trumped it. If any one else had trumped it, you know, we should have lost the trick."—Exchange.

A FAMINE IN CHINA

Li Hung Chang Cables Regarding a Condition of Dire Distress.

OVER 100,000 ARE AFFECTED

Aged Statesman Says Urgent Relief is Necessary—Christian Herald Has Announced Purpose to Raise a Fund—Recent Edict of Empress.

New York, April 27.—The following cablegram was received by the Christian Herald:

"Pekin, April 25.—Very serious famine spreads over the whole province of Shan Si. Over 11,000,000 population affected. Urgent relief necessary. Conditions warrant immediate appeal."

Signed "Li Hung Chang."

The Christian Herald has announced its purpose of raising a fund to relieve the sufferers in the famine stricken district.

FOR GOVERNING CHINA.

Empress Dowager Appointed a Board of Administration.

Washington, April 27.—The following cablegram was received at the state department from Mr. Squier, the United States charge d'affaires at Pekin, dated Friday:

"The empress dowager has appointed a board of national administration to relieve her of her public functions. They embrace three members of the cabinet, with the empress, at Sian Fu, and Prince Ching, Viceroy Li and Prince Kung, who are now in Pekin."

This news was regarded as of importance, indicating, as it does, the relinquishment of the empress dowager of the arbitrary powers she heretofore has exercised. It also is apparent that she has placed herself in a position to avoid direct responsibility to the foreigners, for whatever may happen in the future the board will have to bear the brunt of any complaint. It is felt that the appointment of this board will make it much easier for the foreign ministers to transact business with the Chinese government.

The three members of the cabinet now at Sian Fu include the notorious Jung Lu, who was one of the most active in the outbreak against the foreigners last summer. One of the other members of this council is 70 years old and is said to be greatly debilitated. The third member has been at least lukewarm toward foreign interests. The choice of these three is looked upon as likely to complicate the good which Li Hung Chang and the others may accomplish.

WARLIKE ACT OF CHINESE.

Regulars Appeared Within the International Area.

Pekin, April 27.—The Chinese regulars, who retired beyond the great wall, reappeared at another point within the international area. Strong representations were made to the Chinese plenipotentiaries in regard to the necessity for their immediate retirement. The French force was in readiness to renew the operations, but had been ordered to await the result of the imperial edicts.

The Chinese were wondering if the imperial commission appointed by an edict issued April 23 to inquire fully into the question of reforms really meant the relinquishing of absolute power by the court or whether it was merely the formation of a privy council.

Notices in Chinese were placarded calling on patriotic Chinamen to report May 15 and expel all foreigners. Yung Lu Ting, the censor of Chi Li province, memorialized the throne to return.

CAMPBELL GOT INJUNCTION.

Eviction of His Household Goods Temporarily Prevented.

Hamilton, O., April 27.—Ex-Governor James E. Campbell secured a temporary injunction against the Provident Life and Trust company, and Sheriff Peter Bisdorf, to restrain the sheriff from putting the governor's household goods, now in the Campbell mansion, at Fourth and Ludlow streets, into the street. The sheriff now has a writ of restitution to evict the governor from the house, but the injunction prevents him from serving it.

Governor Campbell established his Hamilton home some years ago. Later he mortgaged the house for \$17,000, and the trust company foreclosed two years ago. By agreement then an order of possession was not given the company, which bought the property. Governor Campbell voluntarily surrendered possession. He then rented the house from the purchaser and has been the tenant ever since, though the house has been closed two years, and the Campbells now live in New York. However, all the household effects are still there, and when in Hamilton the Campbells make it their home.

Rev. S. W. McFadden, of Warren, formerly pastor of the Alliance Presbyterian church, is in receipt of several very flattering calls, among them Philadelphia and Cleveland.

The great rod, wire and nail mill plant of the Union Steel company at Donora, on the Monogahela river, which promises to be the most important independent venture of its kind in the country, will be placed in operation the latter part of next month.

While Richard Whetstone was engaged in burning brush on the farm of Earl Willard, in Franklin township, the flames passed beyond control and burned over 25 acres, destroying some fence and valuable timber and about 6,000 feet of sawed timber belonging to John Williams.

Fraud Is Charged.

Wheeling, W. Va., April 27.—Sensational allegations are made in an affidavit for an attachment filed in the circuit court here by W. P. DeArmitt, W. L. Kann and S. Schoyer, against Robert Kuhn, Clarence Birdseye and Hermann Knubel, all of Pittsburgh, charging them with fraudulently securing \$30,000 in the Empire company's 30,000-acre deal.

TREATY OPINIONS SECURED.

New Isthmian Document May Be Framed.

Washington, April 27.—The administration succeeded in securing a collection of opinions from the leaders of the senate of all political parties upon which to base negotiations for a new isthmian canal treaty to replace the Hay-Pauncefote treaty. In other words, it was aware of the wishes of most of the senators, and the only problem before the state department was to frame a treaty that will reflect those views, insuring a two-thirds vote for ratification, and yet shall be acceptable to the British government. If, as reported from London, the *sic transit quo non* was a neutrality clause, officials here felt that success on this point seemed within reach.

It was expected that two drafts of a treaty would be framed before long, probably the latter part of June, on Mr. Hay's return from the west. It was hardly expected, however, that final results would be attained before next autumn, after the return of Lord Pauncefote from London.

WILL FIND THE
"ONE THING NEEDFUL"

IN DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

The body is built up from the food we eat. But before food can be assimilated by the body it must be prepared for assimilation by the stomach and other organs of digestion and nutrition. Food does not feed when the stomach is "out of order." The result is, weak muscles and flabby flesh. "Golden Medical Discovery" heals diseases of the stomach and digestive and nutritive system. It works with Nature to make manly muscle and form firm flesh.

In a letter received from A. D. Weller, Esq., of Pensacola, Escambia Co., Fla. (Box 544), he states: "I have, since receiving your diagnosis of my case, as stomach trouble and liver complaint, taken eight bottles of the 'Golden Medical Discovery' and must say that I am transformed from a walking shadow (as my friends called me) to perfect health."

COMING TO AN UNDERSTANDING.

Only good can result from the visit of the Cuban commission to Washington and the consultation of its members with the president and cabinet. If the Cubans are fair-minded men, they cannot fail to be convinced that this government has only the welfare of the Cubans at heart and is acting solely to promote their interests rather than its own. A full and complete understanding should, and we believe, will, be the outcome of the deliberations, and the Cuban delegation will return to the island fully enlightened as to the desires and intentions of the United States and prepared to counsel the dissatisfied element in the interests of harmony. This nation has done so much for Cuba that it seems impossible that reasoning men can fail to be impressed with the sincerity of its purpose to foster and aid in the establishment of a stable Cuban government. It has no other aim or motive.

WIRELESS TELEGRAPHY.

Wireless telegraphy, which the incredulous and unprogressive were but recently describing as a scientific plaything of no practical utility, has already been put to numerous uses, the latest being its adoption by one of the big steamship companies. The Cunard line, by means of it, has so arranged that the arrival of the vessels on the Atlantic coast will be known in New York eight hours before intelligence is received at the Highlands signal station and two hours before docking. By supplying the Campania, Lucania, Umbria and Etruria with Marconi plants the vessels will be able to communicate with a receiving station at Montauk Point while passing over Nantucket shoals. This will give friends of incoming tourists a chance to meet them at the pier. For short distance telegraphing the uses to which the system can be put are manifold, and industry, war and commerce will rapidly take advantage of them.

FAMINE IN CHINA.

China has been so busy raising Cain instead of raising vegetables that she is now confronted with a famine. If it were the mischief-makers only who were affected, it would not be so bad, but as usual the hand of hunger falls most heavily on the innocent and helpless. The world has now an opportunity of fulfilling the scriptural injunction to return good for evil and proving, by establishing a Chinese relief fund, that Christians can be generous, even to their enemies.

Neuralgia.

The Prayer of a Nerve for More Blood.

Neuralgia may attack any part of the body but most frequently occurs where the nerves are most abundant.

In the head,
In the face.

Sometimes the heart nerves seem to twist Twisting rheumatic pains of the extremities

Sharp and intense at times
In the intervals dull and heavy.

Neuralgia is the result of impoverished blood caused by impairment of the nerves—lack of nerve force.

It is a disease of the nerve centers, and the pains accompanying it are a prayer for better nourishment. They are the danger signals which warn you against a total collapse of the nervous system.

Liniments and all external applications can only give temporary relief. Permanent cure cannot possibly come until the nerve centers are thoroughly revitalized and reinvigorated by Dr. A. W. Chase's Nerve Pills. The beneficial effects of this great nerve restorative are felt thrilling through the nerve fibers as week by week and month by month the nerve force of the body is restored.

Women afflicted with the disease peculiar to their sex are frequently great sufferers from neuralgia. Dr. Chase's Nerve Pills positively cure both these disorders by filling the nervous system with new vigor and life. 50 cents a box at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. The genuine has portrait and signature of Dr. A. W. Chase on each package.

NOTES AND NOTIONS.

A VARIETY OF TALES PICKED UP ABOUT TOWN.

Opinions And Observations of Interest As Noted By News Review Reporters.

Wednesday morning the shifting engine almost ran down three different wagons at the East and West Market street crossings. Engineer John Workman, in speaking of the matter yesterday afternoon, said:

"The drivers of wagons are very careless at these crossings, especially the drivers of milk wagons. They never stop to see if the train is approaching, and if they should happen to be struck they would sue the company for damages, and nine chances out of ten the residents of that part of the city would want the company to put up gates. The street car which runs up the Calcutta road has also had several narrow escapes, but when coming down that grade with a string of cars it is impossible for us to stop in two or three feet. It is also impossible for myself and fireman to keep a watch on the crossings, as we are compelled to keep our eyes on the brakemen, and I think the teamsters should look to their own safety."

A well known young man of this city attended the dance given at Rock Springs Tuesday evening by Nowling's orchestra. He was slightly under the influence of liquor and in some manner lost his hat. It was found by a friend who kept it for some time.

When it was returned to him he was told to keep tab on it or he would lose it again. It disappeared again and he was unable to find it. When the time to depart for home arrived the young man went to the cloak room where there were about 200 hats, and starting at the front of the room proceeded to try on every hat, saying as he did so: "This one belongs to me," but the owner of the hat would appear and claim it. There was one left out of the bunch and it was several sizes too large for him, but he pulled it down over his ears, turned up his coat collar and took a street car for this city, saying he only wanted a hat to come home in.

"What is the diaphragm?" asked the teacher. "The thing that holds the gas that makes the engine go," answered the small boy who works about a gas engine in his spare time.

MOST PEOPLE LOPSIDED.

Differences Between the Legs, Eyes and Ears of Men and Women.

The two sides of a person's face are never alike. The eyes are out of line in two cases out of five, and one eye is stronger than the other in seven persons out of ten. The right ear is also, as a rule, higher than the left.

Only one person in 15 has perfect eyes, the largest percentage of defects prevailing among fair-haired people. Short sight is more common in town than among country folk, and of all people the Germans have the largest proportion of shortsighted persons.

The crystalline lens of the eye is the one portion of the human body which continues to increase with the attainment of maturity.

The smallest interval of sound can be better distinguished with one ear than with both. The nails of two fingers never grow with the same rapidity, that of the middle finger growing the fastest, while that of the thumb grows the slowest.

In 54 cases out of 100 the left leg is shorter than the right. The bones of an average human male skeleton weigh 20 pounds, those of a woman are six pounds lighter.

That unruly member, the tongue of a woman, is also smaller than that of a man, given a man and a woman of equal size and weight. It may be appalling to reflect, but it is nevertheless true, that the muscles of the human jaw exert a force of over 500 pounds.

The symmetry which is the sole intelligible ground for our idea of beauty, the proportion between the upper and lower half of the human body, exists in nearly all males, but is never found in the female. American limbs are more symmetrical than those of any other people. The rocking chair, according to an English scientist, is responsible for the exercise which increases the beauty of the lower limbs. The push which the toes give to keep the chair in motion, repeated and repeated, makes the instep high, the calf round and full, and it makes the ankle delicate and slender.—Exchange.

When Irving Forgot Himself.

Ben Webster, an English actor, told a good story of how he held his own when Sir Henry Irving happened to be absentminded. In the "Lyons Mail" there is a touching scene between Lesques (played by Irving) and his daughter Julie, of which Didier (Mr. Ben Webster) is a perfectly silent witness.

One night Sir Henry, instead of making his long speech, appealed in trembling tones to Mr. Webster: "Speak to her, Didier; speak to her!" Didier was dumfounded. There was an awful pause. Irving, quite unconscious of his own mistake, frowned wrathfully at the young actor, but Mr. Webster, equal to the occasion, gave way to a burst of tears and exclaimed, "I cannot; you know I cannot speak," and turned his back on the audience.

Then Sir Henry picked up his lines with a start, and it was observed that Didier's shoulders shook with emotion!—Louisville Courier-Journal.

Verdi and Bismarck on Titles.

The composer Verdi was offered a title of nobility by King Victor Emmanuel. It was intended that he should be created Marquis or Comte de Busseto, after the estate upon which he lived. The composer refused the offer energetically. He considered that Verdi was somebody and that the Marquis de Busseto would be nobody.

Even Bismarck was unable to parry a blow of this character. When the young emperor broke with him, he conferred upon him the title of Duke of Lauenbourg. Bismarck received the parchment with this exclamation:

"A pretty name! It will be handy for traveling incognito."

Some days after a parcel arrived at Varzin bearing the address "Mme. la Duchesse de Lauenbourg."

Bismarck, to whom it was delivered, being then at table, arose and, offering the letter to his wife, remarked ironically:

"Duchess, enchanted to make your acquaintance!"

TO RETURN RELICS.

President McKinley Replies That the Lee Family Shall Have the Relics of George Washington.

Washington, April 27.—Senator John W. Daniel, of Virginia, several days ago addressed a letter to President McKinley endorsing the application of General George Washington Custis Lee, submitted by him on behalf of Miss Mary Custis Lee, his sister, for restoration of the relics of General George Washington, of which he (General Lee) became owner on the death of his mother, who was the wife of General Robert E. Lee. In reply President McKinley informed Senator Daniel that it will afford him great satisfaction to have the articles, which are now in the Smithsonian institution, restored "to the present head of a historic family."

The president in part said that all the government did was to accept the trust of their custody at a time when the owner could not protect them, and they were consequently exposed to the risk of destruction.

Mr. Wm. Anderson, of 315 Lisbon street, says: "During the civil war I enlisted and served three years in the Forty-second Ohio infantry. From the exposure during the war I attribute the severe aching and weakness in the loins and muscular rheumatism of recent years which all seemed to center in my kidneys. In the morning when first getting up I was very dizzy until I had moved around for a time and my nervous system became affected causing a fluttering and fullness around the heart. Seeing an advertisement in the paper I got Doan's Kidney Pills at W. & W. pharmacy and took them. A few doses gave me relief. The improvement was gradual and continued as the medicine got more thoroughly into my system. I firmly believe that Doan's Kidney Pills will in every case, as they did in mine, prove the justness of the claims made for them."

NO POWER TO TREAT

The Cuban Commission Can Only
Seek Information at Wash-
ington.

THEIR IMPRESSIONS FAVORABLE

Betancourt Said the Discussion Had
Shown Earnest Effort on Both Sides
to Deal Fairly—Meeting at White
House Produced Good Effect.

Washington, April 27.—The cabinet
meeting, the last one before the pres-
ident's departure for the Pacific coast,
was occupied almost exclusively with
the discussion of the visit of the Cuban
commission. Secretary Root, who has
been conducting the conferences with
the commission, submitted rather ex-
haustively an account of the inter-
views he had had with them. He told
the president and the cabinet of the
objections which the commissioners
raised to the Platt amendment and of
some of the misunderstandings re-
garding it under which they seemed
to be laboring. There was a general
exchange of opinion among the mem-
bers of the cabinet regarding the sit-
uation and in light of the views ex-
pressed. Secretary Root will hold
another conference with the commis-
sioners before their departure. The
president will not see them again,
except to formally bid them farewell.
While there are one or two points
upon which some of the members of
the commission are insistent, the gen-
eral feeling of the cabinet, as reflect-
ed in their exchange of views, was
that the result of the commission's
visit could not but be extremely bene-
ficial in removing erroneous impres-
sions which, it was said, were entertain-
ed regarding the constitutional conven-
tion of the United States. Altogether, it would
not be too much to say that the cabi-
net generally are hopeful that the
convention, after hearing the report
of the commission, will be much
more disposed to accept our terms
than they have been heretofore.

General Betancourt Interviewed.

General Pedro E. Betancourt, one
of the most influential members of the
delegation, Friday, in response to in-
quiries, made some interesting gen-
eral statements as to the purposes
of the visit and the impressions which
the delegates have obtained. He said
in part:

"It should be understood that we
are here for the purpose of studying
the entire question of relations be-
tween the United States and Cuba,
more particularly as presented by the
Platt amendment. But it is a mistake
to think that we have presented any
proposition, or that there is anything
thus far beyond an effort to learn
the views entertained by the auth-
orities here on many points involved,
and at the same time to convey to
them the views held by the convention
which we are here to represent. We
are not clothed with any plenipoten-
tiary powers, and cannot present
plans which occur to us.

"There is absolutely nothing of
that kind. On the contrary, the Platt
amendment has been before the people
of Cuba for some time and there
have been varying views as to the
meaning and construction of some
of its terms. Now we come here to
secure information from those best
able to give it, as to the meaning of
all these points. Thus far, I think
I can say for myself and my asso-
ciates that the discussion has pro-
duced an agreeable impression upon us.
It has shown a very earnest ef-
fort on both sides to deal with the
subject in such a spirit of fairness
and honor as would reach a conclu-
sion satisfactory to all concerned.

Pleased With the Dinner.

"The dinner given at the executive
mansion last night afforded the dele-
gates an opportunity to meet not only
the president and members of his cabi-
net, but many of your foremost sen-
ators and public men in all walks of
life. I can assure you that the meet-
ing produced upon us a most favor-
able impression. We were received
not only with courtesy and regard,
but even with affection. Your lead-
ing public men took occasion to greet
each one of us with assurances of
deep friendly and personal interest
in the maintenance of the most cordial
relations between Cuba and the
United States. It was made plain to
us that your public men approached
this subject in a spirit of disinterested-
ness and of unselfishness and that
their concern was chiefly as to the
interests of Cuba. In so far as the
interest of the United States naturally
might be involved, the view was
maintained that this was for the ultimate
interest and benefit of Cuba.

To Exchange Information.

"As to the details of our further
discussion, the members of the dele-
gation do not feel at liberty now to
go into particulars, although, as I
have said, the purpose is chiefly to se-
cure and to give information, and
then to go back and report to the
constitutional convention as to the
views held here and as to how the
views in Cuba are received among
the responsible authorities here. Al-
though the president is about to leave
on his western trip, yet he has asked

REVISION IS FAVORED

Presbyterian Committee Makes a Decision In Regard to the Creed.

NEW STATEMENT OF DOCTRINE

To Be Issued as Supplement to Confession of Faith—Also Revision of Confession Itself by Added Paragraph or Change In Text.

Pittsburg, April 27.—The committee on the revision of the creed, appointed by the general assembly of the Presbyterian church, in May of last year, while the assembly was in session at St. Louis, which held sessions at the Monongahela house in this city, prepared a report for submission to the next general assembly, which meets in Philadelphia on May 16.

In speaking of the matter, Dr. C. A. Dickey, of Philadelphia, chairman of the committee, gave the following statement of the history of the committee and its work: "The committee on creed revision was appointed by the last general assembly to correspond with the church at large and learn the desire of the different presbyteries with regard to a revision of the standard of the church.

The committee met in Saratoga last August and formulated four questions, which were sent to the different presbyteries for answer. These questions propounded queries as to whether it was advisable to change the creed or not, and if a change were decided upon, concerning the form such a change should take.

"Another meeting of the committee was held in December last in Washington and the answers received from the different presbyteries were tabulated. It was found that there was a very distinct sentiment in favor of some sort of change in the statement of the creed. As to the form such a change should take, the answers from the presbyteries differed. A majority of the presbyteries expressed themselves in favor of a brief restatement of the creed. On the other hand, a strong minority favored the retention of the old statement, but wished it amended in some manner.

"The methods of change advocated by the minority of the presbyteries and upheld by a minority of the committee, demanded changes in the text of the creed, but no one voice was raised in favor of any change which should at all touch the reformed system of doctrine. Since these answers have been received the committee has been engaged in trying to follow the wishes of the church in the matter, and, while there have been differences of opinion about the precise manner of change, a change is advocated by all.

"After a pleasant and harmonious meeting of two days, the committee decided upon two important features of the plan for revision, which will be presented to the general assembly. These features are as follows, and are the most urgently demanded by the presbyteries:

"First—A new statement of doctrine to be issued as a supplement to the confession of faith.

"Second—A revision of the confession itself, either by the addition of a declaratory paragraph or a change in the text."

TELEPHONE EXPANSION

Columbiana County Company Acquiring Rights in Jefferson County Towns.

Toronto, O., April 27.—W. E. Crossley, of the Columbiana County Telephone company, with headquarters at Salem, was in Toronto and New Cumberland a few days ago and closed a deal with the Phoenix company for the purchase of the Toronto and New Cumberland exchanges. Inquiry of Miss Emma Allman, operator at Toronto office, confirmed the statement that a deal had been in progress. The two lines have been connected up for over a month by way of the Steubenville Phoenix exchange, the line passing through Knoxville. This brings Toronto into communication with Knoxville, New Somerset and other northwestern towns of the county.

It is the intention of the Columbian County company, states George Maxwell, of Steubenville, and an official of the Phoenix company, to the Commercial, to entirely remodel the exchanges at Toronto and New Cumberland, and new and up-to-date fixtures will be placed in each. Also that more territory will be covered by this new company, the Phoenix officials not having the disposition or time to look after its development.

The new deal does not mean the consolidation of the two companies, says Mr. Maxwell, but their exchanges will still be connected and their business relations most cordial.

THE S. G. HARD CO.,**THE BIG STORE****BUSINESS BRISK.**

Dun's Review Said It Continued So, In Spite of Drawbacks—Advance In Steel Rails.

New York, April 27.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

Business continues very brisk for the season in the fact of the drawbacks, which at times might cause marked hesitation. Chief of these is the floods in many directions, which have interfered with railroad operations and interrupted the distribution of merchandise, and the weather all over the east has been adverse to an increase in retail trade. Bank clearings, however, show that, while speculation has been heavy, there must have been a well-sustained volume of legitimate business, for the gains are 14.1 per cent over 1900 and 18.9 over 1899, outside New York, and 103.9 per cent over 1900 and 84.0 over 1899 at this city. Railroad earnings make similarly encouraging gains. Reports from the interior show special strength in conditions through Missouri, Kansas and Ohio, and the future is full of promise, unless there is misfortune with the crops.

Much unfavorable comment has appeared regarding the advance in steel rails to \$28. Yet the change is only in keeping with recent increase in prices of pig iron and billets. Nominal quotations for many products of iron and steel have long been disregarded in contracts calling for early delivery, and list prices are generally moving up to the representative level. On new business or export orders it is not unreasonable to make prices for rails on a parity with other products of this industry. Aside from this one operation there is no new development. Pig iron is more quiet, but machinery and specialty mills are exporting freely. It is reported from Pittsburg that mills are not crowded by demand to the extent noticed in 1899, but productive capacity has largely expanded.

After a prolonged period of waiting for definite crop news the cereal markets suddenly awoke to unusual activity. Much of the increased trading and sharp advance in prices resulted from clever manipulation by a single western speculator, who compelled the short contingent to cover May corn contracts at the highest prices of the season. While there was an element of strength in the reports of late planting, slow movement of the old crop held greater influence, as stocks available for delivery were light. Wheat has risen sharply, partly in sympathy with corn, but there was bad news regarding the German crop, and some damage occurred at the west.

Wool is fairly steady, and this is the best that can be said. Eastern markets are quiet, with light demand from the mills. There is less disposition to secure raw material in advance of needs, although much faith is expressed regarding the stability of prices. Reports from many correspondents in the chief sheep raising states indicate that a larger clip than last year may be expected, and the condition is satisfactory. Growers are slow to make contracts at the present level of prices, but the large percentage of the old crop carried over and heavy stocks at the east give little encouragement to hope for higher prices until demand for manufactured goods show material improvement.

Failures for the week numbered 215 in the United States, against 204 last year, and 26 in Canada, agains 22 last year.

HOME AFFAIRS.

Brief Notes of a Personal Nature And
of Matters About
Town.

Bought a Fine Horse—William Huff,
Jr., yesterday purchased a fine driving
horse from E. Overlander, of East
Palestine.

Moving from Irondale—The house-
hold goods of H. M. Hughes were re-
ceived at the freight station yester-
day from Irondale.

Victim of Rheumatism—Rev. W. H.
Gladden, of the M. P. church, is laid
up with something like muscular
rheumatism. Secretary Wright, of
the Y. M. C. A., will occupy the pulpit
tomorrow.

Memorial Day Committee—Com-
mander J. N. Rose, of the Grand Army,
at last night's meeting, appointed the
Memorial day committee. It will con-
sist of N. A. Frederick, M. Anderson
and J. C. Allison.

Hurt on a Car—George Rigby, of
Fifth street, was standing on the steps
of a street car as he was on his way
to work yesterday. The car ran into
a hay wagon. Mr. Rigby's leg was
caught and badly bruised.

New Trial Asked—A motion was
filed yesterday for a new trial in the
case of F. E. Grosshans versus Jesse
Fisher, which was heard before Justice
McLane this week. No time has
yet been set for a hearing of the ar-
guments.

Goes to New York State—John
Lane, who has been employed as a
motorman on the East Liverpool
street car line for the past four weeks,
has resigned and left this morning
for Courtland, N. Y., where he has ac-
cepted a similar position.

Conductor's Hand Hurt—The trolley
on street car No. 9 flew off the wire
yesterday afternoon and Conductor
John Whan, in catching the rope, had
his left hand drawn against the win-
dow in the vestibule, badly mashing
the two first fingers. He is able to be
on duty today.

Patriarchs' Picnic—Canton Rhodes,
No. 73, Patriarchs Militant, at a meet-
ing last evening, decided to hold its
first annual basket picnic at Rock
Springs on June 5. They will prob-
ably extend an invitation to all Odd
Fellows and cantons within a radius
of 75 miles to be present and have
the greatest picnic of the season.

A Historic Die.

On the desk of the secretary of one
of the oldest copper manufacturing
firms in this city is a steel die which
has served as a paperweight for 35
years, and the coins struck off by it are
now, for the most part, in the hands of
collectors. This die was used for strik-
ing copper tokens which symbolized
the contest between President Andrew
Jackson and the old United States bank
of Philadelphia in 1832. The engraving
on the die represents President Jack-
son, sword in hand and apparently
standing in a money chest. Around the
central figure is stamped Jackson's ex-
pression, "I take the responsibility,"
which arose out of his controversies
with the bank.

When this die was made, the prede-
cessors of the present company not
only manufactured copper wire, but
also made a special feature of copper
coins, chiefly for South American coun-
tries and for private business firms
which made a practice of issuing their
own copper coins to be redeemed by
them afterward. During the civil war
and just preceding it many private cor-
porations issued tokens which circu-
lated as pennies, and some of them are
now worth a great many times their
original value to collectors.—New York
Sun.

Paid His Debt.

When Joe Chamberlain entered the
house of commons, he was anxious to
try his oratorical powers. A certain
leading politician, who was piloting a
bill through the house, was approached
by one of Mr. Chamberlain's friends,
who said:

"Chamberlain would like to speak on
the bill. Can you give him a chance?"

"Well, you know, I think it would
not do. He's a new member, and no-
body knows what the Dickens he might
say."

Time went on. Chamberlain gained
ground—became a power in parlia-
ment. The leading politician, on the
contrary, had made a series of blunders
which had imperiled his position. An
election was imminent. Forgetting his
previous record, he thought that if he
could get Mr. Chamberlain to speak for
him he would strengthen his position.
He, therefore, applied to the right hon-
orable gentleman.

The latter calmly surveyed him
through his eyeglass and said:

"Well, you know, I think it would
not do. I am a new member, and no-
body knows what the Dickens I might
say!"

The Word Gazette.

The word "gazette" is from the name
of an old Venetian coin worth about
one-half cent of our money. The name
is applied to newspapers because it
was the sum charged for reading the
first written journals that made their
appearance in 1550. After the paper
was read it was handed back to the
owner, who charged the next comer a
gazette for taking a peep at it.

ABOUT YOUR EYES.

What is more valuable than good Eye
Sight? When it is gone the value is
indestinable, but when it becomes de-
fective, many wear cheap glasses and
employ cheap service, not really know-
ing what the trouble is. The Best Ser-
vices are cheaper in the long run.

Clayton, N. M., April 27.—Thomas
E. Ketchum, alias "Black Jack," the
notorious outlaw, who had terrorized
the people of the southwest for about
the past 15 years, was hanged here
for train robbery. His head was
severed from the body by the rope,
as if by a guillotine. The headless
trunk pitched forward toward the
spectators, and blood spattered upon
some near the scaffold. The head re-
mained
